we do

Three things, done end to end.

01

Regulatory compliance (BIR CAS)

Odoo set up for your own CAS or CBA application. The main BIR reports come from the entries you already post.

02

Business process improvement

We map how your process runs, then set up every hand-off, so nothing is typed twice.

03

ERP/CRM end-to-end implementation

Discovery, set-up on a staging copy, migration, training and support. Accounting, Sales and Inventory first.

TechNext is an Odoo Ready Partner. We are not affiliated with, accredited by or acting for the BIR or any government agency, and we do not file or register on your behalf. Your accountant or RDO confirms what applies to you.
