What changed in CRM, and where you saw it.

AllIn the sessionAlso new

Lead distribution NEW

Each member is always in rotation, in rotation with a limit, or out of rotation.

► Move 3

Pipeline switcher NEW

A dropdown beside the pipeline switches between the sales teams' pipelines.

► Move 2

Mail plugins NEW

From Gmail or Outlook, find the contact and log the email in its chatter.

► Move 1

Company identifiers NEW

DUNS numbers and country company IDs on contacts, each checked against its type.

Lead Sourcing with Dun & Bradstreet NEW

Generate suggests more ways to find leads, and searches Dun & Bradstreet's database instead of Clearbit.

► Move 2

Activities for a person or a role NEW

Assign an activity to someone or to a role, from a clearer Schedule Activity window.

► Move 4

Upsells from a lead NEW

See a customer's subscriptions from the lead and start upsell or renewal quotes linked to it (needs Subscriptions).

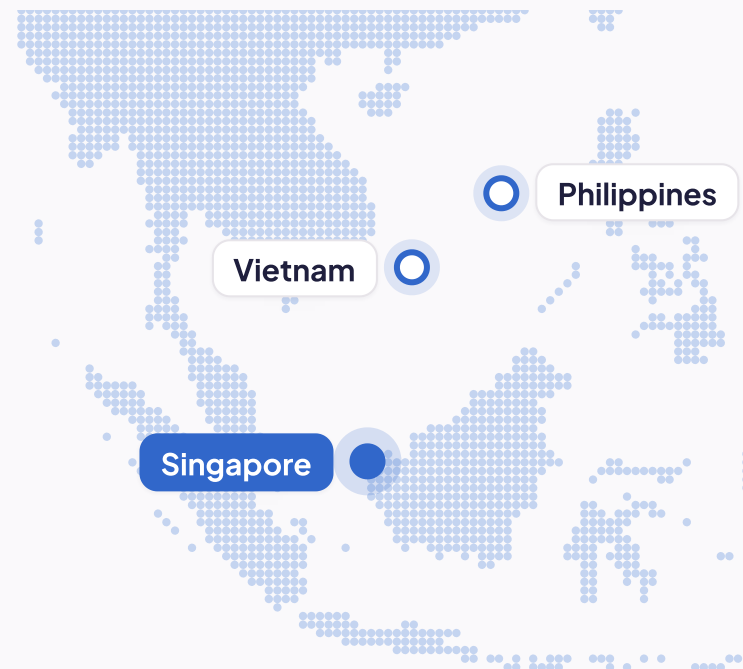

Contacts before addresses CHANGED

Address details are hidden on leads, so the team creates a proper contact instead.
