case study · retail

Right stock, wrong store.

A Singapore apparel retailer with eight stores, one warehouse and a size M that kept selling out in the wrong places. The knot, and how Odoo 20 untied it.

01 The problem | 02 The Odoo answer | 03 Rollout

✓ Illustrative composite · sample company and figures

meet the client

One shirt, 135 stock numbers.

Weftwood
sample company · Singapore

8 stores, malls and high streets

1 warehouse

2 collections a year

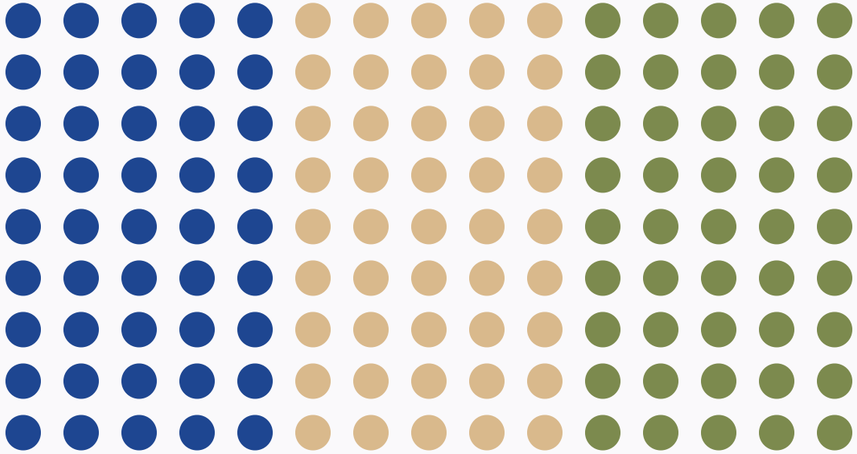

240 styles a season

IT RUNS ON

- **A stand-alone till** — in each store, sales only
- **Stock in Excel** — updated weekly by the warehouse
- **A loyalty app** — its own login, its own points
- **Accounting software** — fed by the bookkeeper monthly

COUNT WHAT ONE STYLE REALLY IS

1 style × 3 colours × 5 sizes × 9 locations = **135**

× 240 styles = **32,400** stock figures a season, in a weekly Excel file.

✓ Illustrative composite · sample data

the complicated part

The total said “on plan”. The sizes didn’t.

Weekly report | By size and store

Linen camp shirt · Navy · week 6 · sold / allocated

slow · selling · sold out

	XS	S	M	L	XL
Orchard	2/4	7/10	11/12	6/10	1/4
Tampines	3/4	9/10	OUT	8/10	2/4
Jurong East	1/4	5/10	10/12	7/10	2/4
Bugis	2/4	8/10	OUT	6/10	1/4
Woodlands	1/4	4/10	7/12	8/10	3/4
Novena	0/4	3/10	3/12	4/10	1/4
Punggol	2/4	6/10	OUT	7/10	2/4
Holland Village	1/4	4/10	4/12	3/10	0/4
All stores	12/32	46/80	71/96	49/80	12/32

3 stores

sold out of M by week 5: Tampines, Bugis, Punggol

17 shirts

in size M sit unsold in Novena and Holland Village

Tampines · M

12 of 12 sold. Sold out in week 3: every customer since then left without it.

✓ Sample figures

why it is hard

Everything sold, so the mistake repeats.

drag the season, or → to week 12

Week 12 of 12 — Price on the rail S$44.50 · 50% off

Full price · S$89.00 | 30% off | 50% off

W3 **Tampines sells out of M**
Customers asking for M leave empty-handed.

W5 **Bugis and Punggol follow**
Novena still has 9 M, Holland Village 8.

W8 **Markdown, 30% off**
To move the M, XS and XL that didn't sell.

W11 **Clearance, 50% off**
The last 51 shirts go at S$44.50.

W12 **Next season's buy**
"All 320 sold. Same size curve again."

SOLD AT FULL PRICE

205

shirts at S$89.00

MARGIN LOST TO SELL-OUTS

S$2,552.00

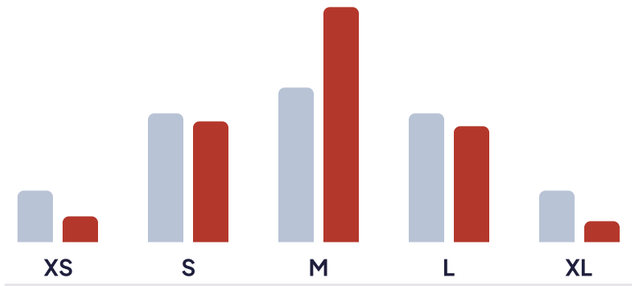

44 customers wanted a size that was out

MARGIN GIVEN IN MARKDOWNS

S$3,978.30

115 shirts sold below full price

NEXT SEASON'S SIZE CURVE

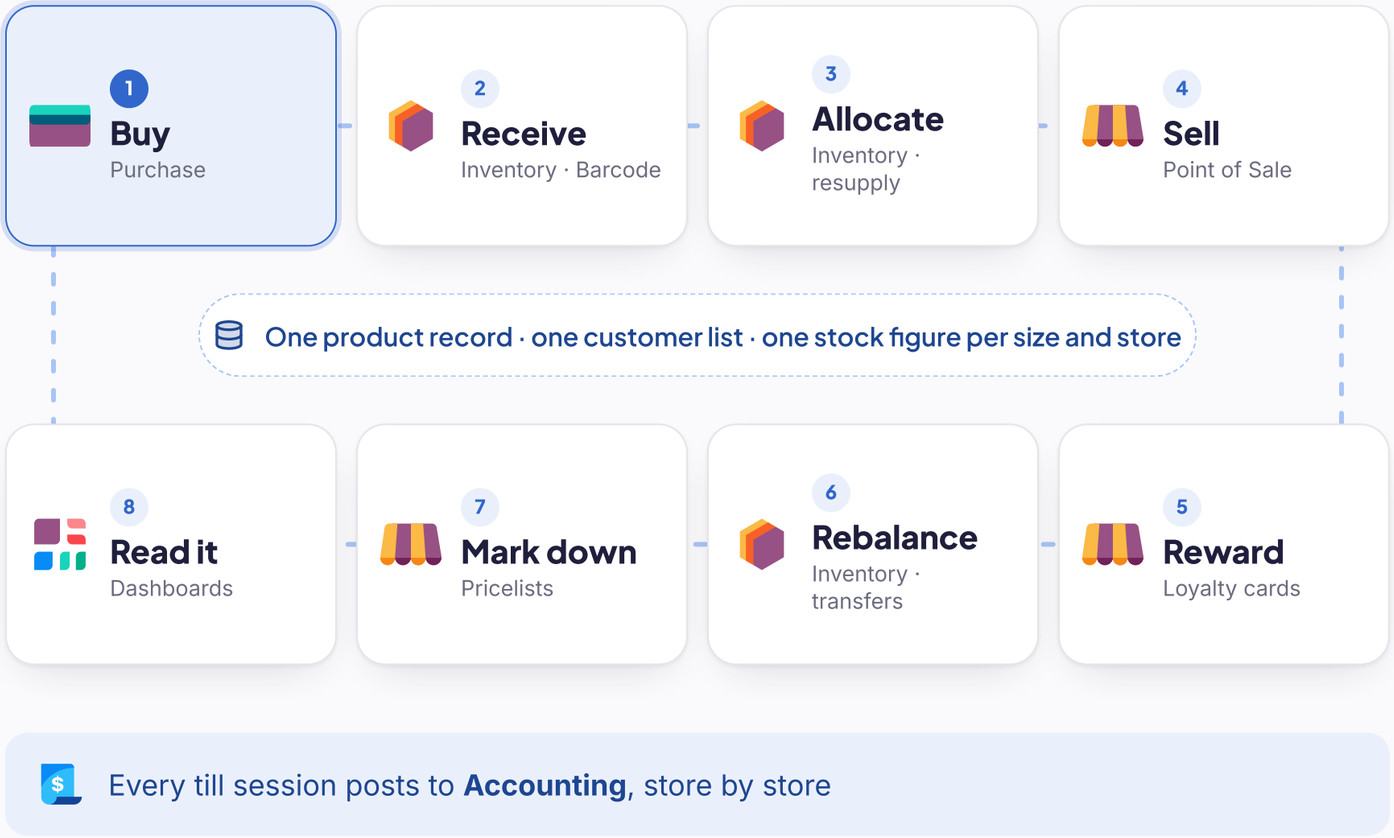

Bought, and "all sold" — Wanted at full price

M was 30% of the buy and 45% of full-price demand. The report can't show it: sold-out sizes record no demand.

✓ Sample figures · one style, one colour

the odoo answer

Every step of the season, in one database.

Every till session posts to **Accounting**, store by store

STEP 1 · PURCHASE

Buy by size, not by style

Each purchase order line is a variant: the linen shirt in Navy M has its own quantity and barcode, and is received against the order.

workflow 2 · the customer

Earn in Tampines, redeem in Novena.

→ follows one customer

Contacts · Loyalty Cards

Sample customer · member
One card, every store

Tampines · order TAM/0412	+159 pts	S$159.00
Novena · order NOV/0388	−400 +69 pts	S$69.00
Balance brought over imported from the old app	253 pts	
Loyalty card · Weftwood Circle valid in all 8 stores	81 pts	

Spent across stores **S$228.00**

☆ Rewards — Points earned and used in 2 stores

Weftwood Circle
Loyalty card · all 8 stores

81
points

1 point per S$1 · 400 points = S$20 off

One history, one balance

1. **Tampines, Saturday**
   The cashier sets the customer. The M is there: it came from Novena.
2. **Points land on the card**
   +159 points, on the one loyalty card all 8 stores read.
3. **Novena, two weeks later**
   The Rewards button offers S$20 off. One click.
4. **One customer history**
   The contact shows every order, from every store.

how we rolled it out

Four phases, one pilot store first.

1 **Products and the warehouse**
Inventory · Purchase · Accounting

2 **Pilot store**
Point of Sale · Barcode

3 **Seven more stores, loyalty**
Point of Sale · Loyalty cards

4 **Read and rebalance**
Dashboards · transfers

WE DO

Load every style with sizes and colours as variants and a barcode each, set up the warehouse and eight store locations, and connect purchasing to the books.

~~Stock in a weekly Excel file~~ → Stock by size and store, live

~~Purchase orders by email~~ → Receipts scanned against the order
