attendances

Clock in at the depot, in seconds.

A tablet at the gate runs Odoo's kiosk: scan a badge or tap a name. The hours land on each person's record.

fleet

Every truck, its driver and its costs.

Each vehicle carries its plate, driver, odometer and every service, so the cost of one truck is one click.

how they connect

One person, one record.

The driver who clocks in at the gate is the same employee on the truck. Nobody keeps a second list.

before we scope it

Six questions for the call.

1. How many people check in each day, and at how many depots or sites? — Not asked
2. Do drivers and crews start at a depot, or go straight to a port or a customer? — Not asked
3. Badges, a PIN, or picking a name on a tablet: what fits your gates? — Not asked
4. How are extra hours approved today, and by whom? — Not asked
5. How many vehicles, owned or leased, and who manages them? — Not asked
6. Which costs should show per vehicle: fuel, repairs, registration, insurance? — Not asked
