a process guide · November 2026

BIR CAS registration, step by step.

The process, the audit risks and the penalties for businesses that keep books or issue invoices from software, and how we set Odoo up for BIR requirements.

Odoo Ready Partner · For Philippine taxpayers

what it is · why now

Register the system first, go live second.

A Computerized Accounting System (CAS) replaces manual and loose-leaf books. The BIR registers your use of it before it keeps your books or issues your invoices.

WHO REGISTERS

Businesses that keep books or issue invoices through software

WHAT YOU GET

An Acknowledgement Certificate (AC) with its control number

WHY NOW

No demo is needed first, and the Ease of Paying Taxes (EOPT) invoice rules count as a major change: a system registered before must update its registration

✓ Register first | ⚠ Go live first

Apply
Online (ORUS) or at your RDO

AC issued
The BIR checks completeness

Go live
Books and invoices from the system

Post-evaluation
Later, on the BIR's timing

✓ **Your books and invoices count from day one.**

No system demo is needed before go-live. The BIR reviews the system afterwards, so it must match what you registered from the first invoice.

audit risks · penalties

Each repeat offence costs more.

An audit or a post-evaluation can surface an unregistered system, and deficiency tax, surcharge and interest come on top.

VIOLATION	TAX CODE	1ST OFFENCE	2ND OFFENCE
Using unregistered invoices	Sec. 264	₱20,000	₱50,000
Unregistered cash register machine	Sec. 264	₱25,000 / unit	₱50,000 / unit
Failure to issue invoices	Sec. 264	₱10,000	₱20,000
Invoices missing required details	Sec. 264	₱5,000	₱10,000
Not producing books when summoned	Sec. 266	₱10,000	₱20,000
Failure to keep or preserve records	Secs. 232, 235	₱1,000 to ₱50,000, by gross sales	
Keeping two sets of books	Sec. 257	Not compromisable: fraud	

Using unregistered invoices

Sec. 264

Choose any row in the table

1ST OFFENCE
₱20,000

2ND OFFENCE
₱50,000

3RD AND LATER
No compromise
The case can go to court

IF PROSECUTED
₱1,000 to ₱50,000 fine and 2 to 4 years

Compromise amounts: BIR RMO 7-2015, Annex A; for Secs. 264 and 266, third and later offences cannot be compromised. Micro and small taxpayers pay 50% of the compromise for invoicing violations (RR 6-2024). Criminal ranges: the Tax Code. Confirm current figures with your accountant or RDO.

the process

You file, the BIR decides, then you go live.

STEP 7 OF 7 The BIR

The BIR post-evaluates the system

The RDO checks the system against BIR standards on its own timing, and any audit can check it again. Violations draw RMO 7-2015 penalties.

before you apply

Six things ready before you apply.

Sworn statement	Annex C or E, with the system description (C-1)	You sign
Signed technical requirements	Annex B: how the system meets the BIR's standards	You sign
Sample invoices	Printed from the system, with every detail the BIR requires	With TechNext
Sample books of accounts	Journals and ledgers printed from the system	With TechNext
Printed audit trail	The system's record of who changed what, and when	With TechNext
Papers that apply to you	The licence holder's certification; IDs if a representative files	If needed

Tick each item as it is ready.

⚠ Checklists vary by RDO. Confirm the current list before filing.

after go-live

Registered once, kept every year.

From go-live	**Books and invoices come from the system** The AC control number prints on every system invoice, manual books stop, and the setup stays as registered.	You
Every day	**Keep and back up every record** Generally for 5 years under the EOPT Act, ready to produce when the BIR asks.	You
Before a change	**Report it before you use it** A minor update needs a notice. A major one needs an updated registration first, or the registration has no effect from that date.	You
30 days **after year-end**	**Register your e-books in ORUS** A soft copy of your books, on USB with a transmittal letter. Odoo exports the books; the registration is yours.	You
Anytime	**The BIR may post-evaluate the system** On its own timing, and again in any audit. Violations draw RMO 7-2015 penalties.	The BIR

how we help

Odoo Accounting, set up for BIR requirements.

DAY 1	**Setup**	Company, 2 users, fiscal year and opening balances
DAY 2	**PH taxes**	Chart of accounts, VAT and expanded withholding tax
DAY 3	**Invoices and bills**	Invoice and bill layouts set up for BIR requirements
DAY 4	**CAS books**	Books of accounts, reports and the e-books export
DAY 5	**Train and hand over**	Hands-on training for 2 users; your samples and outputs ready

Odoo Out-of-the-box Accounting + CAS Package

TechNext · 5 implementation days · 2 users

WHAT YOU HAVE AFTER DAY 5

- ✓ Odoo Accounting configured for the Philippines, with VAT and expanded withholding tax
- ✓ Invoices, bills and CAS books set up for BIR requirements, with the e-books export
- ✓ Two users trained, and your samples and outputs ready for the application
- ✗ Not included: the Odoo subscription, billed separately

You file your CAS application in ORUS; **we** set Odoo up and prepare the samples and outputs with you. The five days are our schedule; the BIR sets the timing of its review and the AC.

TechNext is an Odoo Ready Partner. We are not affiliated with, accredited by or acting for the BIR or any government agency, and we do not file or register on your behalf.

TechNext

next steps

Set up, apply, keep it every year.

From the advisers behind **142 ERP projects** for **90+ enterprise clients**.

1. **Start the 5 implementation days**
   Setup, taxes, invoices, CAS books and training for 2 users
2. **File your CAS application**
   In ORUS, with the samples and outputs we prepared together
3. **Keep it up every year**
   E-books after every year-end; changes reported before you use them
