project tiers

Three tiers for your Odoo rollout.

TIER 1

Essentials

Small teams moving off spreadsheets onto one system, starting with one app or three.

On quotation service fee, after discovery

- ✓ 1–3 focus apps: Accounting or Invoicing, then Sales and Inventory
- ✓ Odoo Online, single company, standard configuration
- ✓ Company, taxes, users & chart of accounts set up
- ✓ Role-based team training
- ✓ Data import: contacts, products, opening balances
- ✓ 30 days go-live support

Choose Essentials

☆ MOST POPULAR

TIER 2

Growth

Growing SMEs connecting sales, stock and finance.

On quotation service fee, after discovery

- ✓ Accounting + Sales + Inventory + CRM + Purchase
- ✓ Bank feeds & payment gateway integration
- ✓ Light customisation & tailored reports
- ✓ Full data migration
- ✓ Multi-user, role permissions
- ✓ 60–90 days support

Choose Growth

TIER 3 · CUSTOMISATION

Enterprise

Multi-branch groups needing the full suite, built around how you work.

Custom quotation service fee, scoped to you

- ✓ Full Odoo suite, multi-company & multi-currency
- ✓ Custom modules & advanced workflows
- ✓ AI integrations (assistants, automation)
- ✓ Dedicated project manager
- ✓ Third-party & marketplace integrations
- ✓ SLA support / annual maintenance

Choose Enterprise

These tiers are TechNext's service fee for implementing Odoo 20, not the Odoo licence. Licences are billed separately by Odoo, per user per month; our fee is confirmed per quotation.

Essentials — Growth — Enterprise

which tier fits?

Three questions, one starting point.

01 Which apps do you need first?

Accounting, Sales or Inventory | **Those plus CRM and Purchase** | The full Odoo suite

02 How many companies or branches?

One company | Several, or several currencies

03 What has to be connected or built?

Nothing yet | **Bank feeds and payment gateways** | Custom modules, AI or marketplaces

START WITH

Growth

Growing SMEs connecting sales, stock and finance.
