odoo accounting

Books that keep up.

Bank lines matched as they arrive, bills read from their PDFs, late payers reminded and the GST return checked, so month-end is a review.

Chores done by hand each month **1**

With Odoo Accounting

one database, every journal

Kestrel & Pine Pte Ltd — Sample company

- **Bank lines arrive on their own**
  bank synchronisation, or a statement import
- **Bills are read from their PDF**
  lines suggested from the vendor's past bills
- **Payments match by rule**
  you validate only what the rules cannot place
- **Reminders go out on schedule**
  by email, from the invoice itself
- **The GST return fills itself in**
  box by box, from posted entries
- **You review, then lock the month**
  the reports are already live

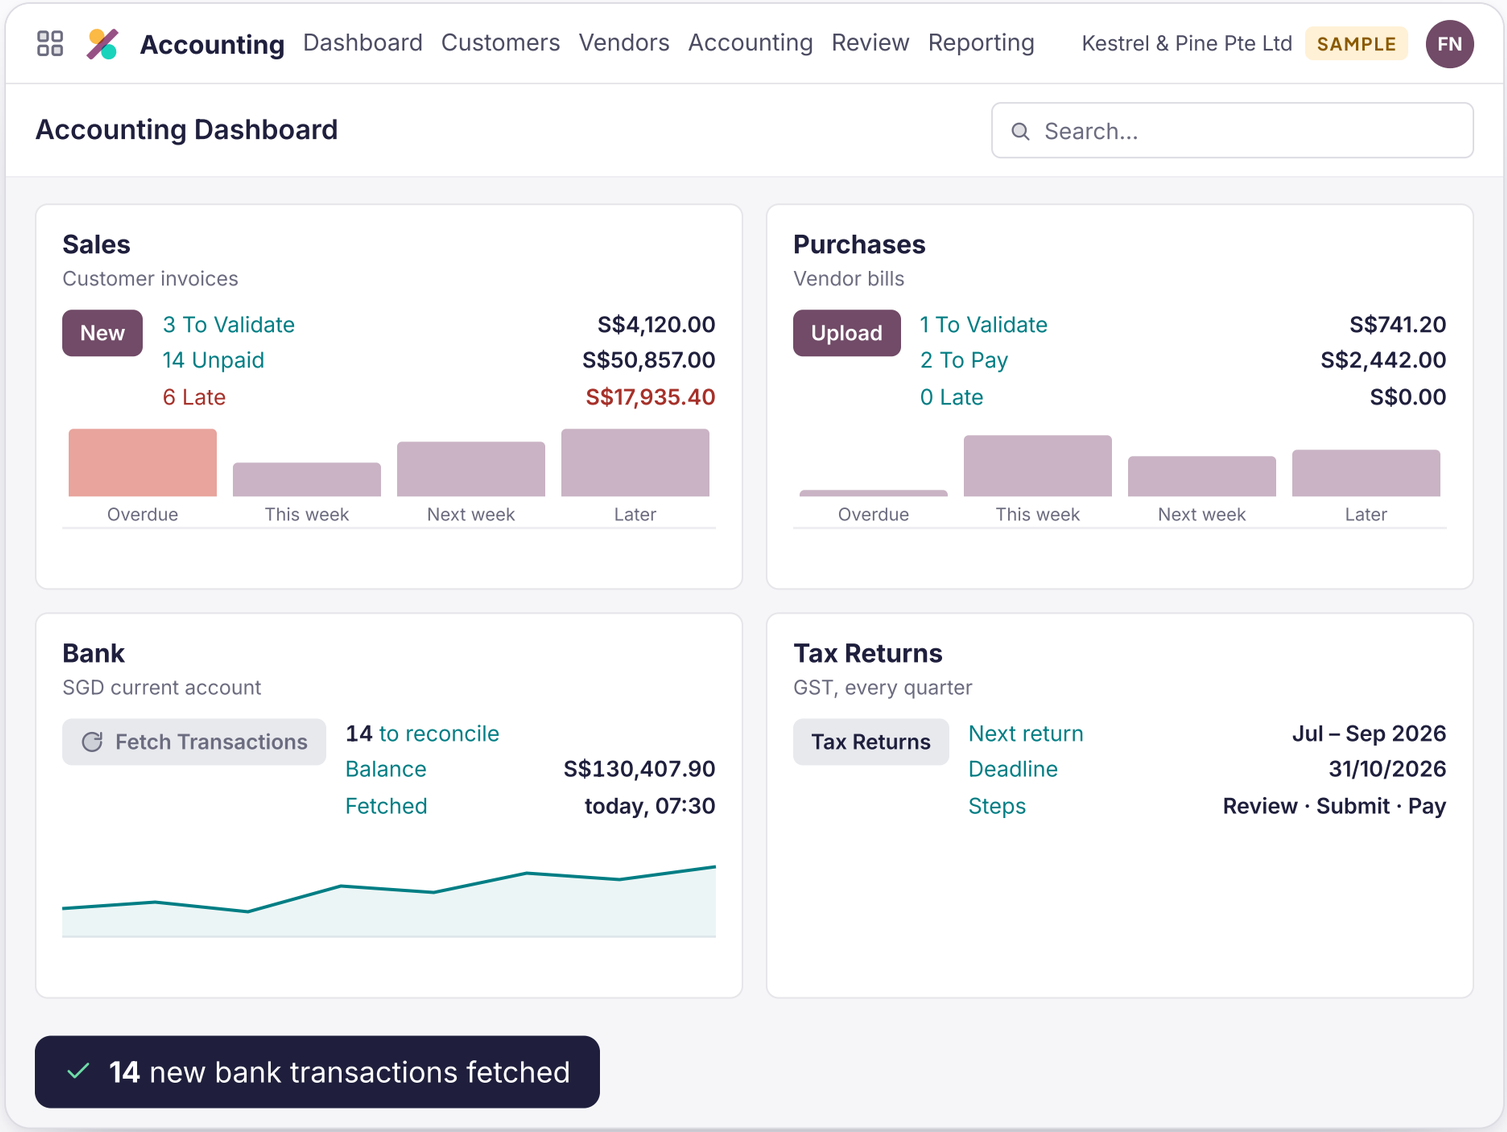

The bank is already in.

Every journal on one dashboard. Bank synchronisation fetches new transactions twice a day.

Press → or click Fetch Transactions

THIS SESSION

- ✓ **Bank feed** 14 transactions in
- 2 Bank matched
- 3 Bill from a PDF
- 4 Reminders
- 5 Bills paid
- 6 GST return
- 7 Month locked

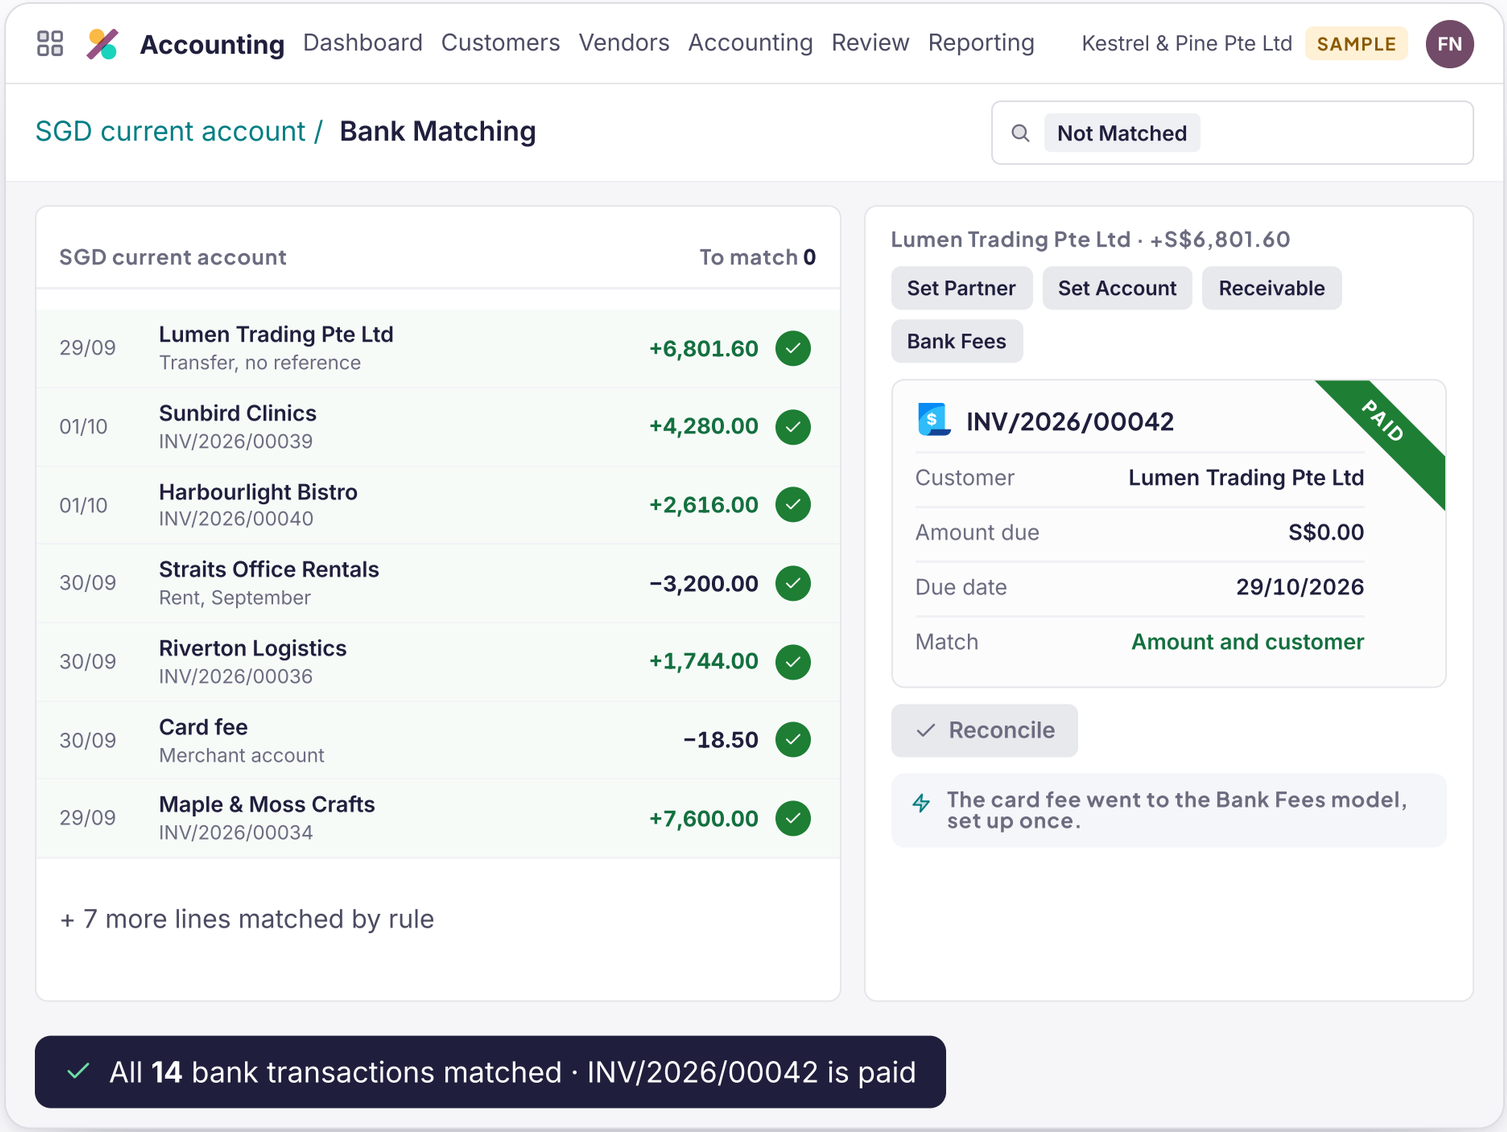

13 match. You confirm one.

Matching rules place every payment they recognise. For the rest, Odoo suggests the invoice.

Press → or click Reconcile

THIS SESSION

- Bank feed 14 transactions in
- Bank matched 14 of 14 matched
- 3 Bill from a PDF
- 4 Reminders
- 5 Bills paid
- 6 GST return
- 7 Month locked

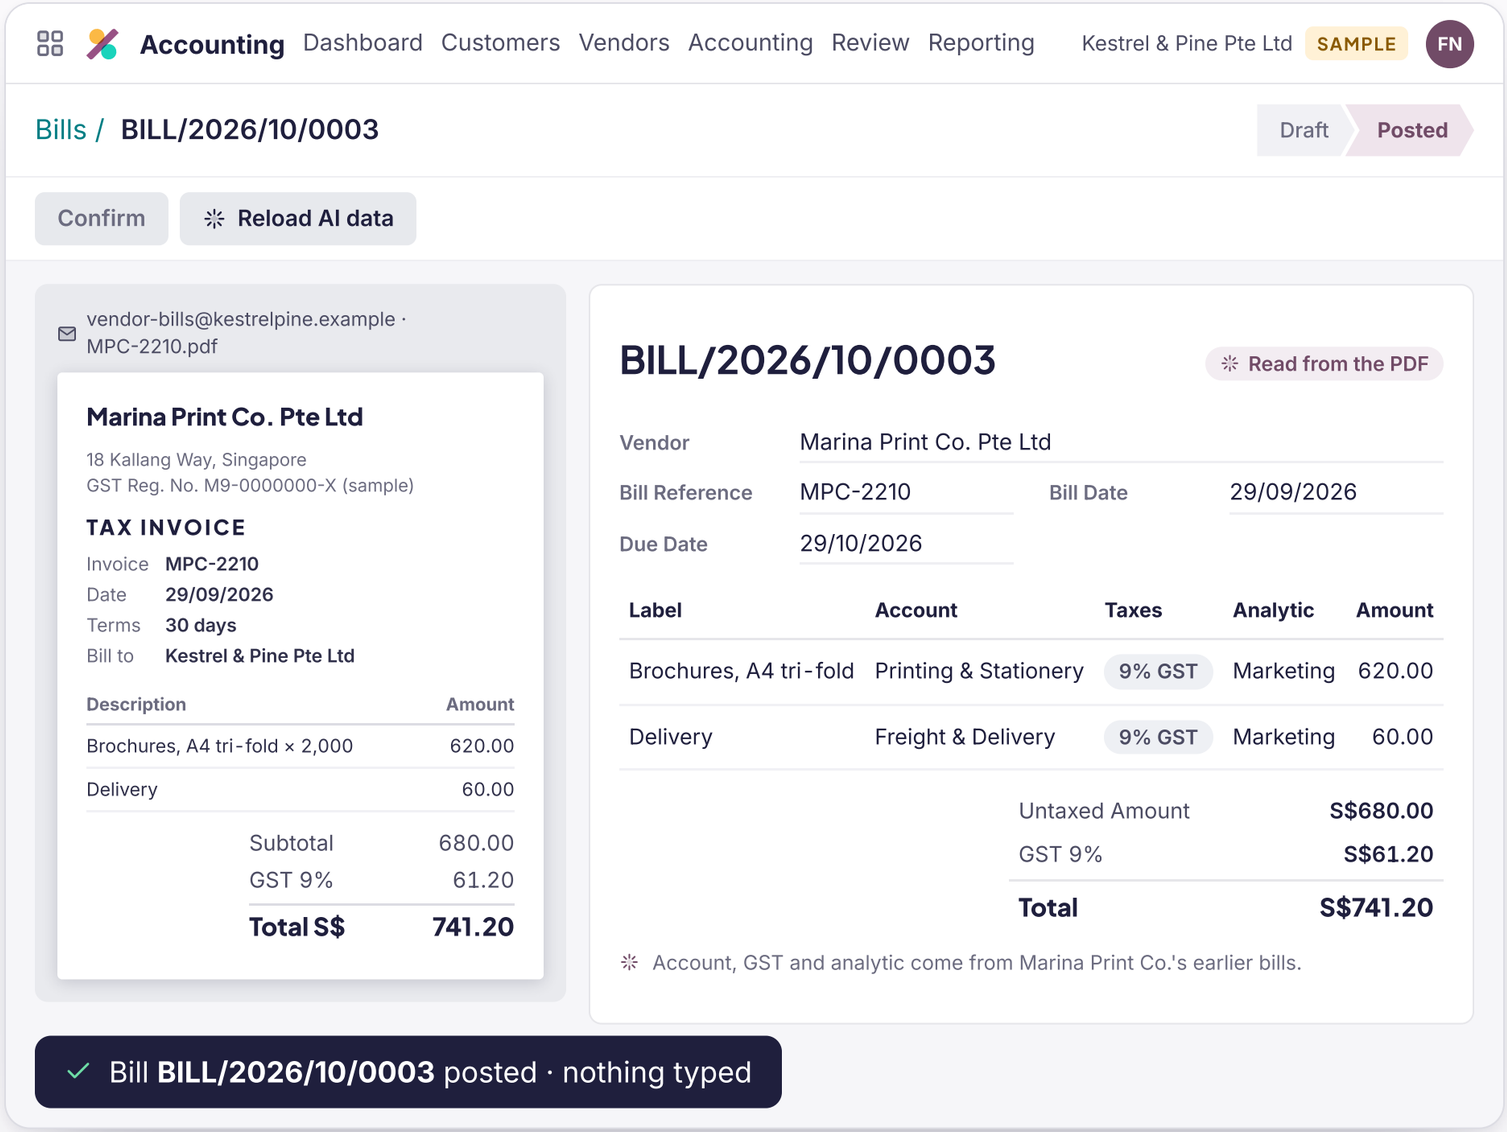

A PDF bill, never typed.

Forwarded to the bills address, it is read, and each line coded from the vendor's past bills.

Press → or click Confirm

THIS SESSION

new in odoo 20

What changed in Accounting, and where you saw it.

All | New | Check before upgrading

Bill line prediction NEW

A bill's product, account, tax and analytic distribution are suggested from past bills and the label.

▸ Move 3

Matching rules and auto reconciliation NEW

Rules set the payment tolerance and matching order; Run Auto Reconciliation reruns them on demand.

▸ Move 2

Payment statuses renamed CHANGED

A payment that was "In Process" now shows Paid, and one that was "Paid" now shows Reconciled, once it meets its bank line.

▸ Move 5

Bank entries come from the bank CHANGED

Every journal entry on a bank account must now come from a bank transaction, so manual mismatches cannot happen.

Invoice reminders NEW

Follow-ups from the invoice list or the Send button, or automatic reminders set in the Accounting settings.

▸ Move 4

No double payments NEW

The payment dialog finds payments already on their way and deducts them from the amount due.

▸ Move 5

Parent accounts CHANGED

Parent accounts replace account groups in the chart of accounts, and account codes become optional.

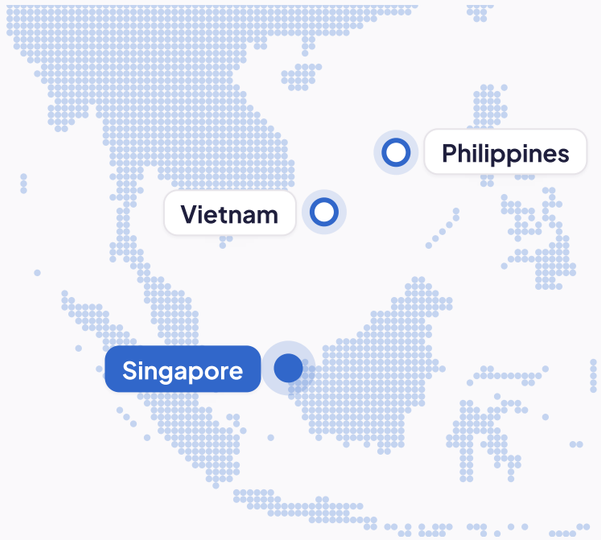

Expenses arrive as draft bills CHANGED

Approved expenses become draft bills in the expense journal; the separate Employee Expenses menu is gone.
