Marketing
what your customers see

Enterprise AI
grounded in your data

Odoo ERP
one database underneath

the service map

Fourteen solutions. We advise where to start.

Odoo ERP

7 services

- Odoo ERP implementation ›
- CRM development
- Enterprise, multi-company Odoo
- Odoo customization
- Odoo integration
- Odoo training
- Odoo support

Enterprise AI

4 services

- RAG knowledge assistants
- Odoo + AI integrations
- Workflow automation
- AI chatbots

Marketing

3 services

- Web design and development
- Social media management
- Graphic and brand assets

ODOO ERP

Odoo ERP implementation

Discovery, configuration, migration, training, integration and support. Accounting, Sales and Inventory first.

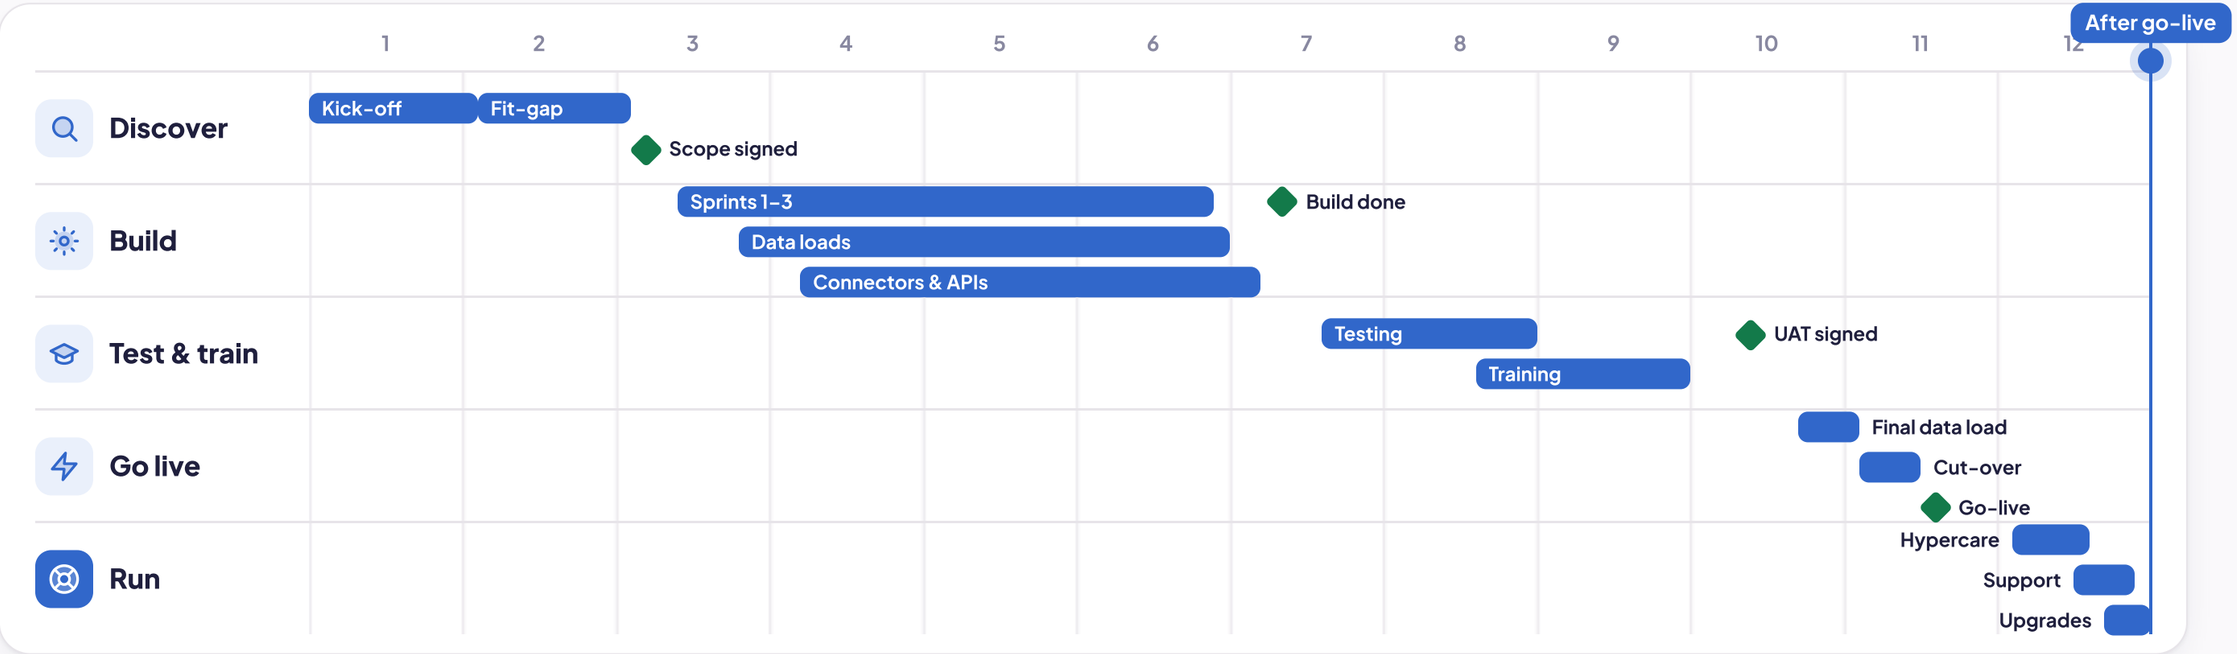

See it working →

Slide 3 · Odoo ERP implementation

odoo 20 implementation

Discovery to support, on one plan.

Week 12 of 12

RUN

After go-live. Hypercare with daily check-ins, then support, month-end help and upgrades from the team that set it up.

TechNext SG · PH · VN, then the support team

✓ Illustrative 12-week plan · your dates are set in discovery

crm development

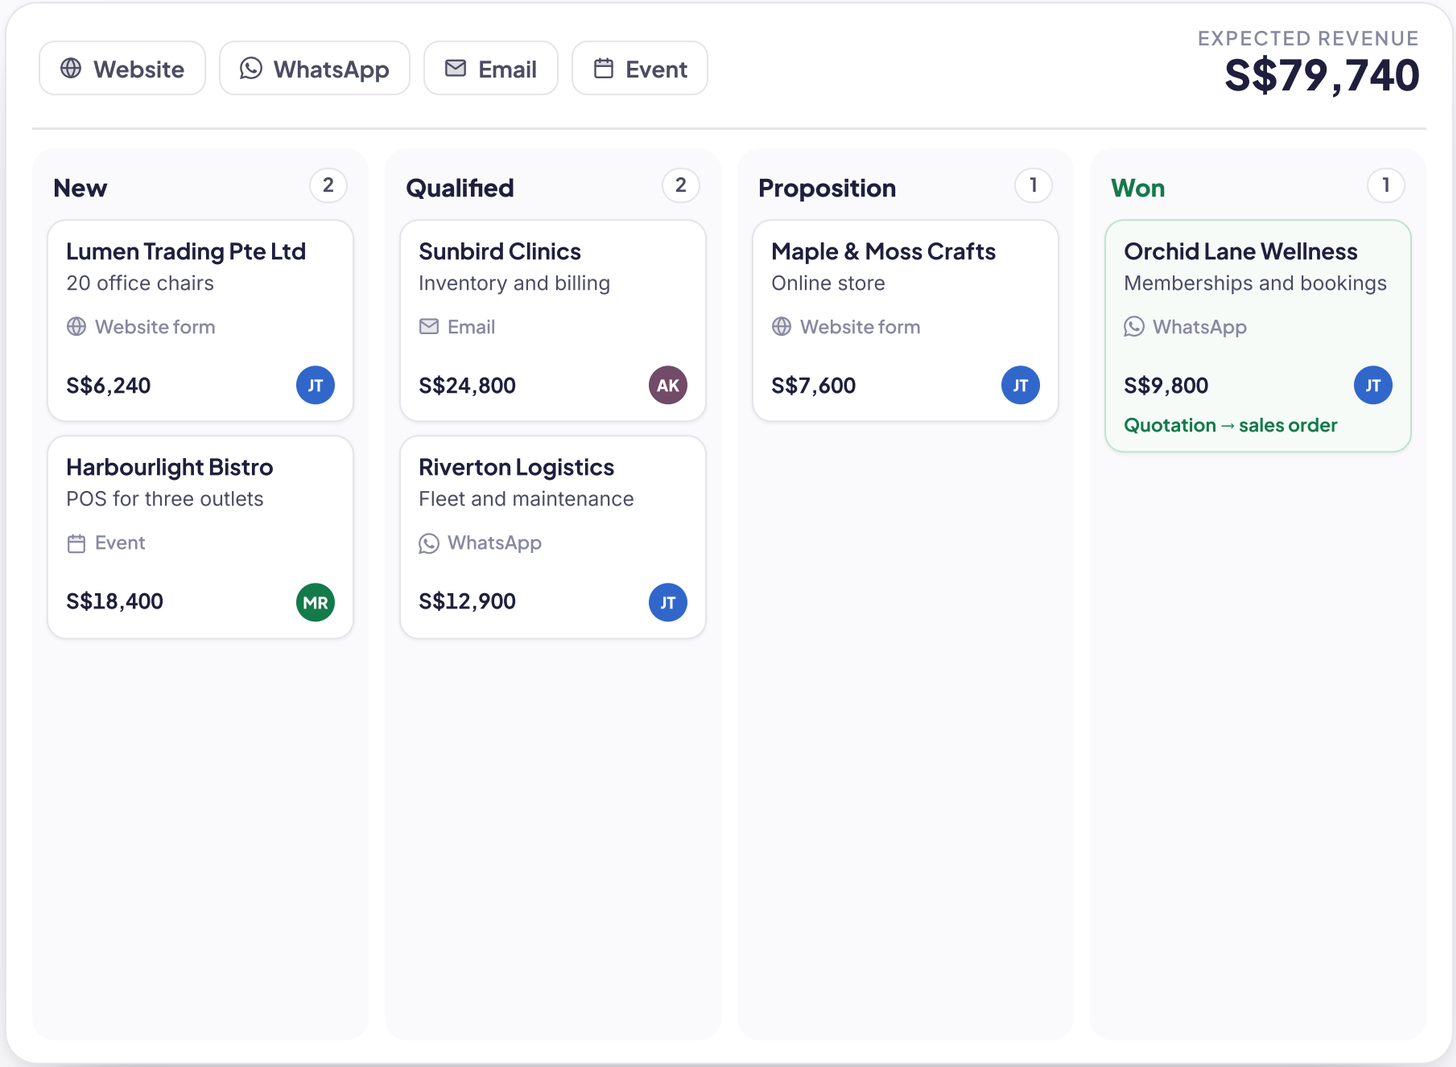

Pipelines built around how you sell.

Leads from every channel land in one pipeline, go to the right person by rule, and turn into quotations on the same record.

ASSIGNMENT RULES

Website or email	Inside sales
WhatsApp	Inside sales
Event · F&B	Hospitality team
Deal over S$20k	Senior account manager

Add a lead

✓ Illustrative pipeline · sample leads

enterprise solution

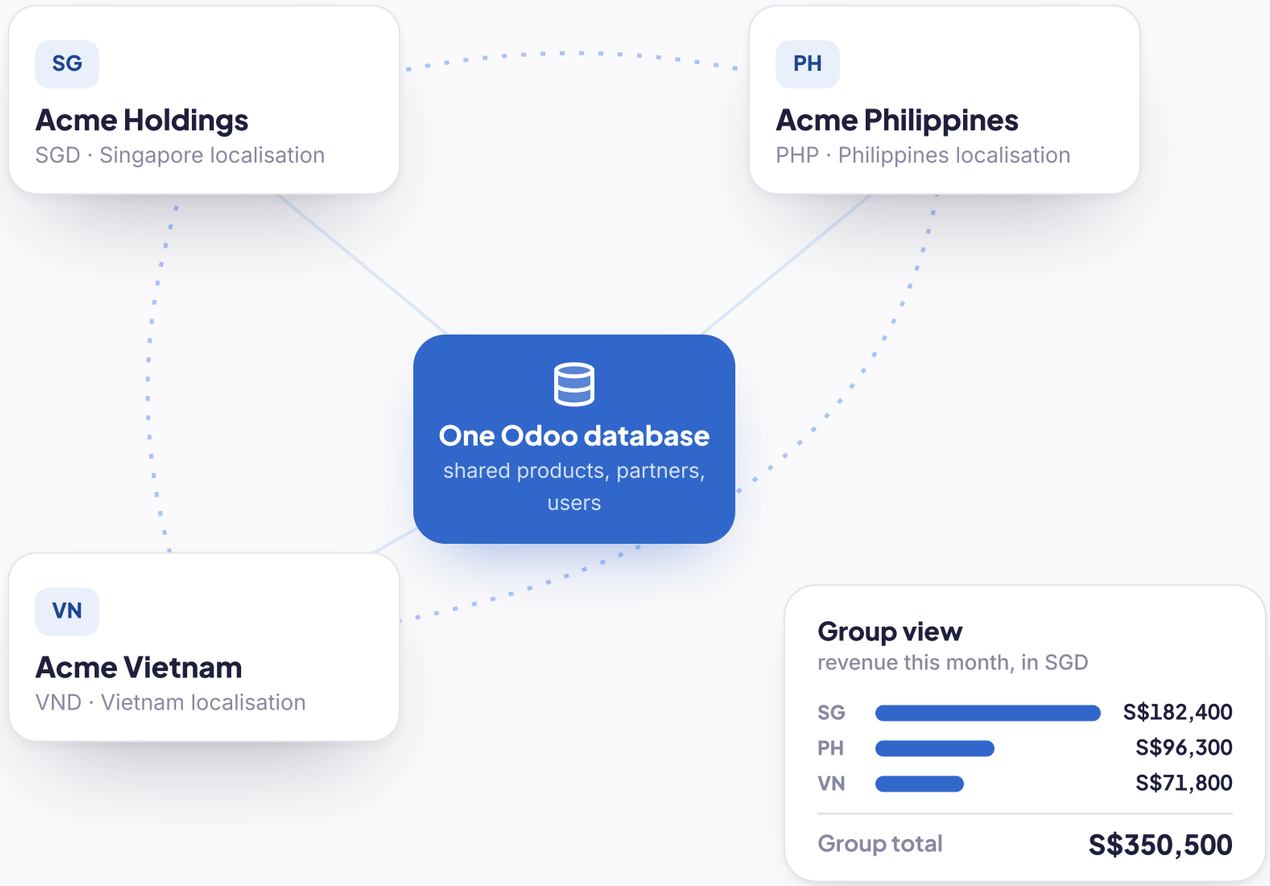

Three companies, one database.

Each company keeps its own currency, localisation and books, and orders between them mirror themselves.

COMPANIES

- **Acme Holdings Pte Ltd**
  Singapore · SGD
- **Acme Philippines Inc.**
  Philippines · PHP
- **Acme Vietnam Co., Ltd**
  Vietnam · VND

Run an inter-company order

✓ Illustrative group · sample companies and figures

odoo customization

Standard first, custom where it counts.

1 Configuration
Settings, workflows, taxes, routes, approval rules and templates
Low upgrade cost

2 Studio
No-code fields, views, reports and automations
Checked each upgrade

3 Custom module
Python code for new logic, integrations or apps, on Odoo.sh
Ported every version

Should we build it? Click a request

"We need a new screen to see one number"

"Make it look like our old system"

"Something that happens twice a year"

"Our bank has no standard connector"

✓ Worth building: a clean module on Odoo.sh, tested on staging and kept in version control.

odoo integration

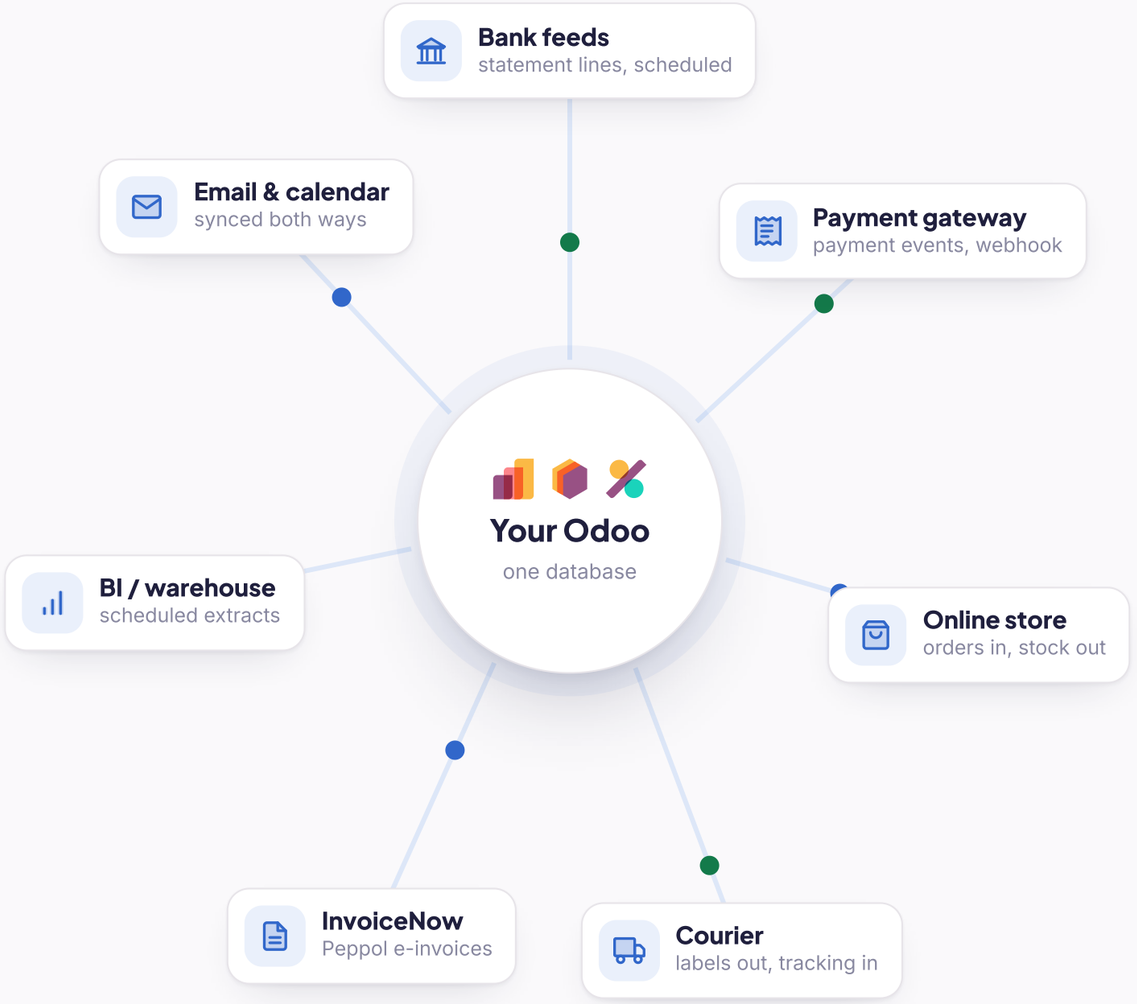

Connect what you keep, re-type nothing.

Standard connectors first, the Odoo API where needed. Webhooks push events in seconds, scheduled jobs sync in batches, and failures retry before a person is alerted. Odoo 20 adds an MCP connector for AI tools.

TRY AN OUTAGE

No outage | Courier down | Marketplace down

Synced	Retrying	Duplicates blocked
24	0	1

✓ Sample connectors · timings sped up

odoo training & support

Trained on your screens, supported by the same team.

Training

each team, its own screens, a copy of your data

Sales | Warehouse | Finance | Managers

QUICK-REFERENCE GUIDE

Quotation to confirmed order

1. Create the quotation from the customer record
2. Add products; prices come from the pricelist
3. Send it by email for online signature
4. Confirm: the delivery is created for the warehouse

Support

one channel after go-live

#1042 · Month-end: bank lines not matching — Closed

- **Received**
  09:02 · from Finance
- **Picked up**
  09:10 · by the consultant who set up your bank sync
- **Fixed**
  10:25 · matching rule updated, lines reconciled
- **Confirmed**
  10:40 · closed by Finance

18	3	7
closed this month	upgrade tasks planned	small changes shipped

✓ Illustrative guide and ticket

enterprise ai

Four disciplines. Grounded, approved, measured.

RAG knowledge assistants

Plain-language answers from your policies, manuals and records, with the source cited.

See it →

AI inside Odoo

Vendor bills read and matched, replies drafted, records summarised, in the ERP itself.

See it →

Workflow automation agents

Classify, look up, prepare, route and follow up, with approval steps and an audit trail.

See it →

AI chatbots

Web, WhatsApp and in-app assistants that capture leads and hand off cleanly to a person.

See it →

1 **Scope the task**
the hours it costs, the decision that stays human

2 **Ground it in your data**
exactly what the AI may see

Set the guardrails
what it does alone, what waits for approval

4 **Launch and measure**
what was handled, what was handed over

rag knowledge assistants

Answers from your documents, with the source.

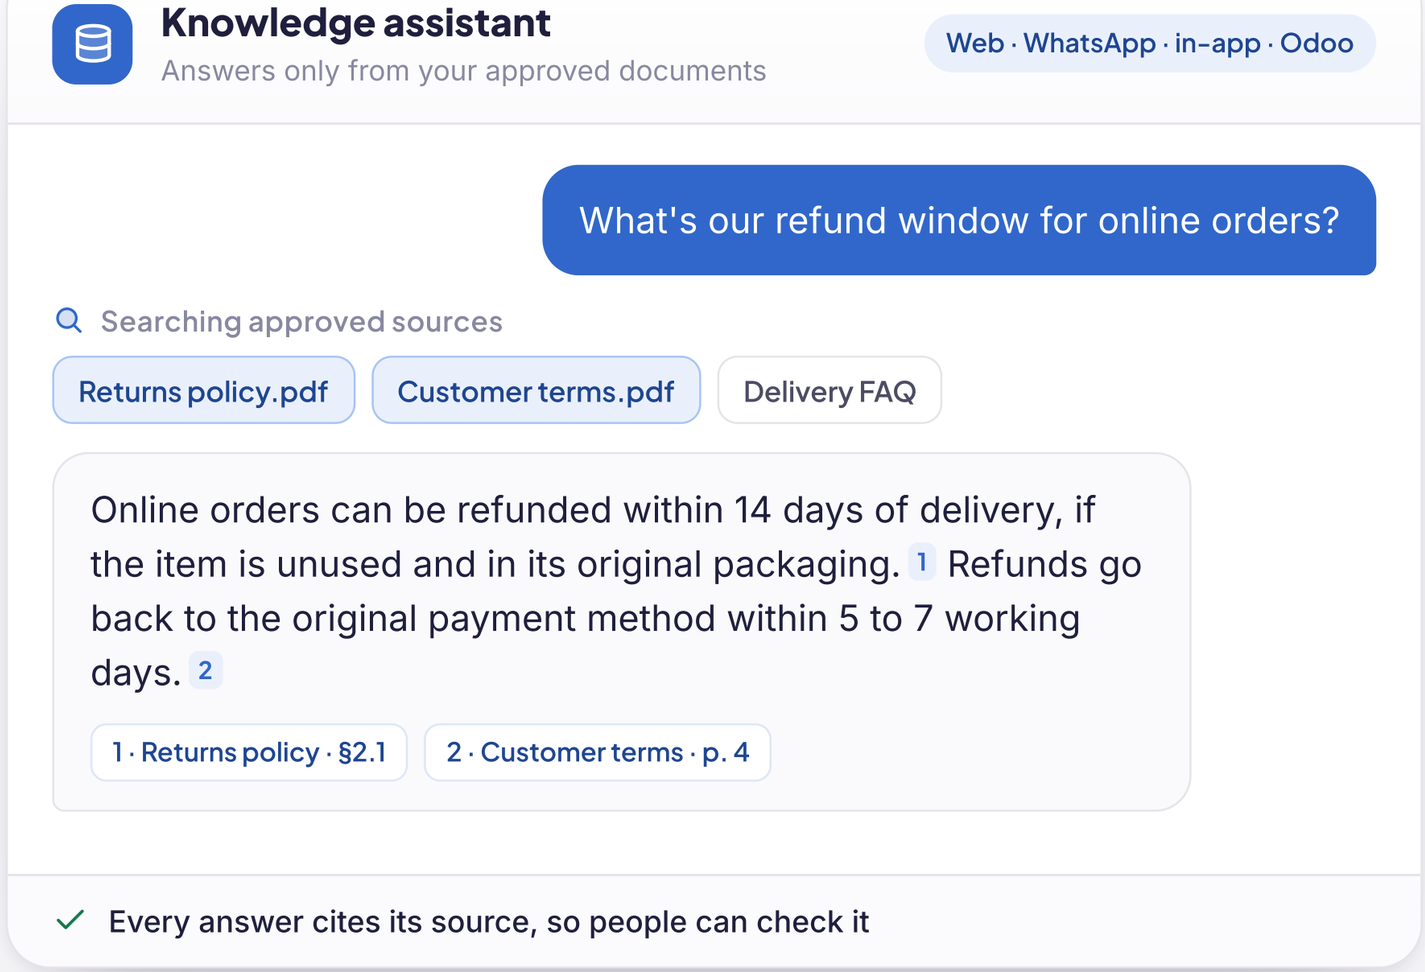

1 Retrieve
find the passages in approved documents that answer the question

2 Answer
write a plain-language answer from those passages only

3 Cite
show where each part came from, so people can check it

ASK A SAMPLE QUESTION

Refund window | Annual leave | Bolt torque, line 2

Illustrative · sample documents

odoo 20 + ai

The AI prepares. A person approves.

Vendor bills read and matched
to the purchase order and the receipt

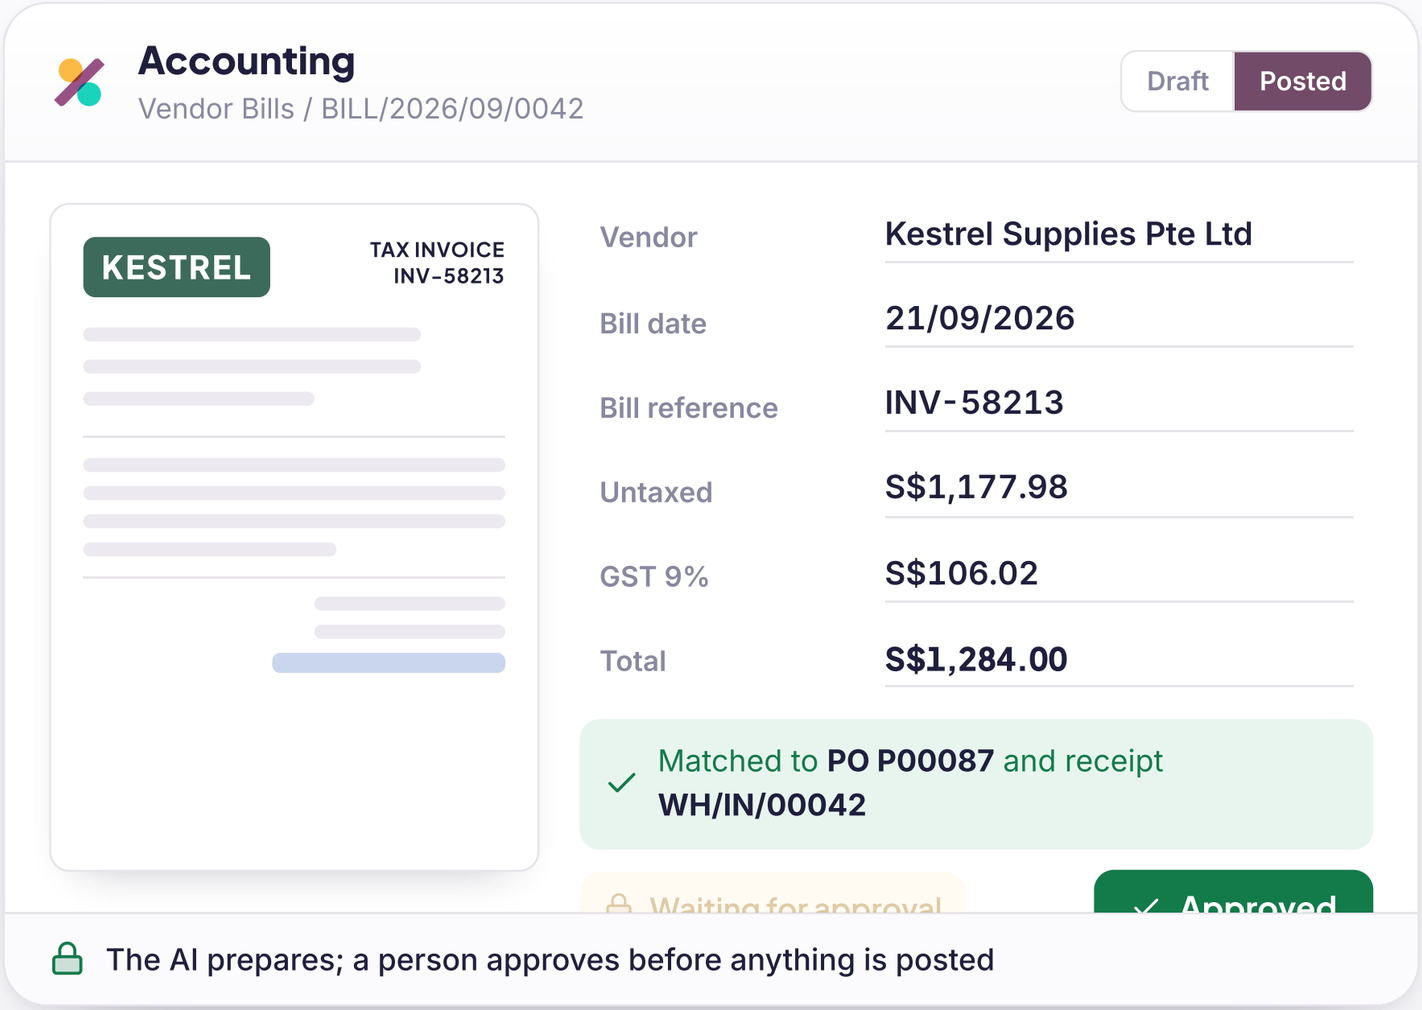

Replies drafted from the record
order status, delivery dates, balances

Records summarised
for the next person who opens them

Every action logged
on the record, with who approved it

Odoo 20 adds its own AI agents, which create and update records, and an MCP connector. AI features use Odoo credits.

✓ Click **Approve** in the bill, or wait a moment

✓ Illustrative · sample bill

automation & chatbots

Illustrative · sample conversation and order

Agents that do the steps, assistants that hand off.

Workflow automation agent

an email arrives, the order changes, a person a...

Workflow agent

Runs when an event arrives

Logged for audit

New email · Lumen Trading Pte Ltd

"Please move order S00123 to 3 October"

Classify
Order change request

Look up
S00123 · 20 office chairs · due 26 Sep

Prepare
New delivery date 3 Oct · reply drafted

Approval
Approved by Sales

Send and log
Reply sent · date changed on S00123

Approval steps where it matters, and every step on the audit log

AI chatbot

answers from your knowledge base, then a clean hand-off

TechNext Assistant

online · answers from your knowledge base

WhatsApp · web

placed before 2 pm go out the next working day.

From: Delivery FAQ

Can someone call me about a bulk order of 200 units?

Of course. I've passed your request to our sales team with this conversation, and they'll call you today.

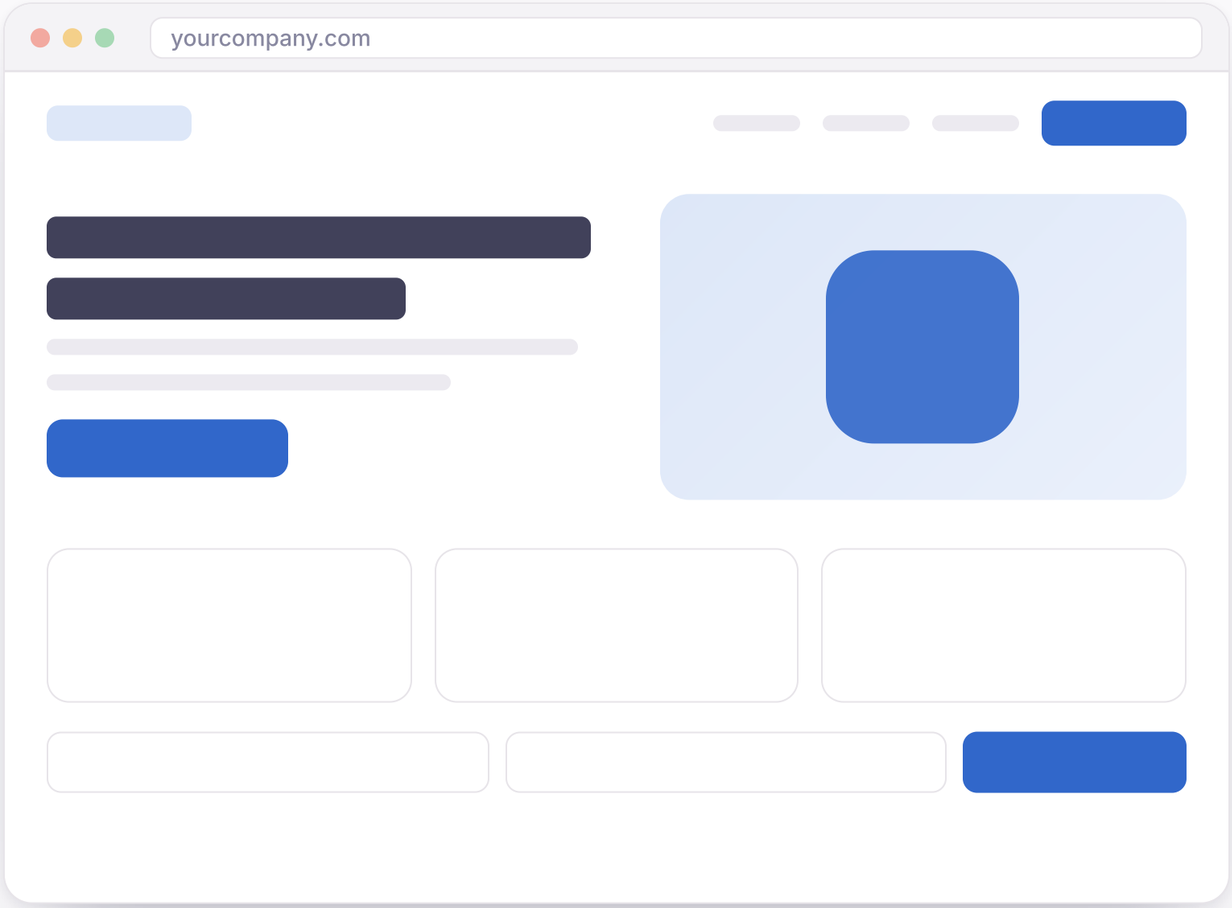

Handed to Sales
Lead created in Odoo CRM, with the chat attached

Hands off to a person, with the whole conversation

marketing

Websites, social and brand, run monthly.

Web | Social | Brand

Fast on every phone
light pages, images sized for the screen

Clear on what you do
one message per page, a clear next step

Built to be found
clean structure, schema and answers AI search can quote

Leads to the right place
forms that land in your inbox or Odoo CRM

pricing

Two parts, both in writing.

PAID TO ODOO

Odoo licences

Priced by Odoo per user per month, with a free plan for a single app. Prices differ by country and currency. A new Light User access type covers staff who only need things like HR self-service.

One App Free	one app, Odoo Online
Standard	all apps, Odoo Online
Custom	Studio, Odoo.sh or on-premise

Current terms: odoo.com/pricing

+

QUOTED BY TECHNEXT

Our work, scoped in discovery

Quotation

follows the written scope

- Discovery and written scope
- Configuration of the apps in scope
- Data migration, loaded twice
- Integrations with the tools you keep
- Custom modules, only where needed
- Training, team by team
- Hypercare, then monthly support

✓ Marketing and support run as monthly retainers

- Scope first, then the quotation
- Odoo bills its licences directly
- Changes agreed in writing
