*what we understand*

# Three guesses about TTI Laguna. Tell us which are wrong.

INDUSTRY

## Manufacturing and import/export

TODAY

## Running on SAP Business One

NEED

## An ERP set up for BIR requirements

### Our guesses

True, or not us?

1. BIR forms are built outside SAP Business One — True / Not us
2. Import costs are tracked in spreadsheets — True / Not us
3. December is already a busy month — True / Not us

*the date, in plain words*

# 66 days to 31 December 2026.

**31 DECEMBER 2026**

**66**

**days left**

**31 Dec 2026.** From this date, covered taxpayers issue compliant e-invoices. An issued e-invoice can't be deleted or changed.

**Who it covers**

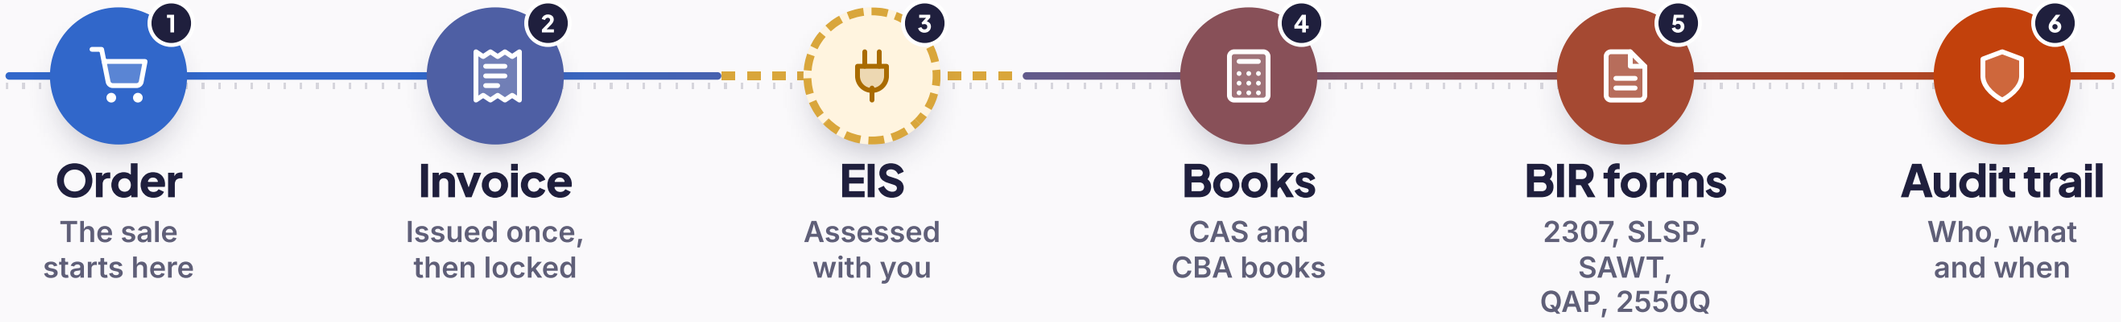

- E-commerce or internet sellers
- Large Taxpayers Service
- Large taxpayers (RA 11976, RR 8-2024)
- CAS or CBA users with invoicing software
- Micro taxpayers: exempt

Your accountant or RDO confirms which group you are in. Head office and branches are covered.

RR 26-2025 · RMC 98-2026 · general guidance, not tax advice: confirm with your accountant or the BIR

*your pipeline*

# Your compliance flow, in one Odoo.

**Lit stations** are part of the Odoo set-up we propose

**Dashed station**: to assess with you, quoted separately

From the sale to the audit trail: six stations, one Odoo.

*one invoice*

# One invoice, issued once. Corrected, never edited.

**Sales order** — Confirmed

*eis and books*

# The EIS we assess. The books we set up.

3 EIS

4 Books

**BIR EIS connection** — to assess

**Not built into Odoo, and not built by TechNext.**

- What your business must send to the EIS
- The options to connect, assessed with you
- A separate quote, once we know the option

**No software is BIR-accredited.**

**Book of Accounts** — CAS and CBA · sample

## BIR forms

BIR FORMS AND LISTS · ODOO 20 PH LOCALISATION

| | |
|---|---|
| 2307 | Certificates on supplier bills |
| SLSP | Sales and purchases lists |
| SAWT | Summary alphalist of withholding |
| QAP | Quarterly alphalist of payees |
| 2550Q | Quarterly VAT summary |

## Audit trail

**Audit trail** sample

| | | |
|---|---|---|
| 09:02 | Billing clerk | Posted INV/2026/00042 |
| 09:05 | Billing clerk | Tried to edit INV/2026/00042: locked |
| 09:11 | Accountant | Issued credit note RINV/2026/00012 |
| 09:20 | Accountant | Attached a 2307 to a supplier bill |
| 09:34 | Accountant | Exported the SLSP list (DAT) |

Every change is kept: who, what, when.

The forms come out of the same books. Your accountant reviews them before anything is filed.

*the plan, compressed*

# From this week to 31 December, in four moves.

Today · 26 Oct

31 DECEMBER 2026
66 days left

1

### Discovery and data review

Your accountant's view, your BIR forms and books, your SAP Business One data.

2

### Odoo set-up and BIR outputs

Invoices, books and the 2307, SLSP, SAWT, QAP and 2550Q outputs, set up in Odoo.

3

### Parallel run beside SAP Business One

Both systems side by side, checked against each other before anything switches.

4

### Cut-over

One cut-over date from SAP Business One to Odoo, fixed in the proposal.

## Starting now keeps December calm.

A compressed plan, in the order the work happens.

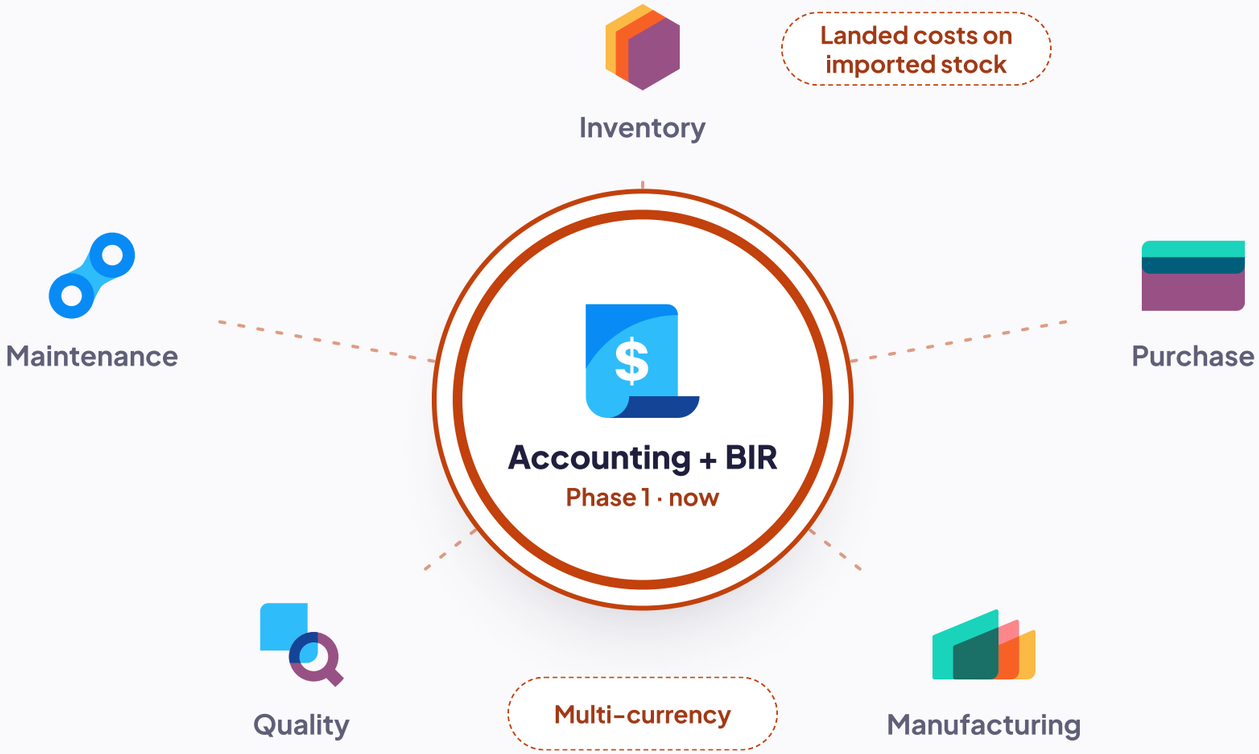

LATER PHASES, FOR IMPORT AND EXPORT

- Multi-currency
- Landed costs on imported stock
- Purchase
- Inventory

✓ Order of work, not durations · dates fixed in the proposal after discovery · Odoo has no native SAP Business One connector, so the move is TechNext's service

*later phases · import and export*

# Accounting first. More when you're ready.

Phase 1 · now

## Accounting, with BIR compliance

Phase 1: invoices, books and BIR forms in one Odoo, as in the flow you just saw. Import and export pieces, and the factory apps, follow when you are ready.

**Lit** is in the first proposal. The other apps are options, added in your order and at your pace.

✓ Options for later phases, not part of the first proposal

*for our call*

# Eight questions we need answered.

**0** answered · **0** to follow up

Copy follow-ups

1. What has your accountant or RDO said about e-invoicing coverage and the date?
2. When does your SAP Business One licence or support renew, and does that shape the timing?
3. Which BIR forms and books do you produce today, and who prepares them?
4. Where do you stand with CAS, CBA and a Permit to Issue?
5. Roughly how do your sales split between export and local?
6. How are import costs handled today: freight, duties, handling and the cost of each item?
7. How many years of history do you want to bring across from SAP Business One?
8. Who decides, and by when would you need a decision to start in good time for 31 December?
