Singapore HQ

profile 1 of 10

Clement Koh

CEO

Clement builds companies across borders, from regional headquarters in Singapore to European operations and manufacturing in China and Hong Kong. Along the way Clement has hired and trained more than 1,000 people, and led automation projects where thousands of everyday tasks now run by themselves. Ask Clement about running several companies on one system.

1,000+
staff hired and trained

724
staff in one BPO set-up

10+
Wi-Fi and network security projects

SKILLS, BY GROUP

20 skills in 4 groups

Click a group to focus it

STRATEGY & OPERATIONS

- Global strategy
- Singapore regional headquarters
- Multi-company operations
- Europe-centred operations
- China and Hong Kong manufacturing

AUTOMATION & DIGITAL TWIN

- Office automation
- Dashboards
- Digital twins
- Thousands of automations
- Building management linked to field service
- Energy and air-quality sensors
- Webhooks and web sockets
- Integrating thousands of devices

PEOPLE & SET-UP

- BPO set-up in second-tier cities
- Office, equipment and IT set-up
- Hiring and training 1,000+ staff
- Team management

INFRASTRUCTURE

- Wi-Fi networks
- Network security
- Server racks, home lab and NAS

CREDENTIALS

- ✓ MSc Marketing
- ✓ Cybersecurity and data protection certification

profile 2 of 10

Pia Cachola

General Manager

Pia runs TechNext day to day as General Manager, turning strategy into plans the whole team can deliver. Pia shapes how the company is structured and governed, sets the roadmap and the KPIs that track it, and builds the operating plans, workflows and accountability that turn objectives into measurable results. Ask Pia about growing a business without losing control of how it runs.

5
areas of expertise

23

profile 3 of 10

Astroneil Matan

Senior Functional Lead

Astroneil has spent 24 years helping companies move onto ERP and CRM systems, ten of them on Odoo. Astroneil sits down with your finance and operations teams, maps how the work really happens, and turns it into a set-up that fits, from data migration to local tax and multi-currency. Ask Astroneil about moving off another ERP without losing your history.

24+ years in ERP and CRM

10 years on Odoo

30 projects in the portfolio

SKILLS, BY GROUP

32 skills in 6 groups

Click a group to focus it

FUNCTIONAL LEADERSHIP

- Discovery workshops and scoping

core technologies

SKILLS, BY GROUP — 15 skills in 4 groups — Click a group to focus it

ODOO CLIENT WORK	Solution design for clients · Needs analysis · Client support and maintenance · Database administration · Partner network training
DEVELOPMENT	Python · JavaScript · PostgreSQL · Front-end and back-end coding · Web design and landing pages · Feature testing
SYSTEMS	POS systems
WORKING STYLE	Time management and organisation · Client communication · Eye for detail
CREDENTIALS	✓ BS Computer Science, Dean's Lister

profile 7 of 10

Jett Balanza

Business Systems Analyst

Jett sits between your team and our developers, turning what you need into a working Odoo set-up. Jett gathers the requirements, writes the process documents and configuration guides, configures and customises Odoo, runs user acceptance testing and trains your people before go-live. Jett also builds Python automations that cut manual configuration time, and has helped design and train an HR AI agent.

8
weeks per roll-out, from 12

40%
less manual configuration time

50%
faster team onboarding

SKILLS, BY GROUP
