TechNext | MONEYBEES

a proposal for moneybees forex corporation

Keep your Odoo. Add what CAS needs.

Six books in Excel, invoices and receipts that print and reprint under control, a clean go-live, recorded tutorials, and help with your BIR CAS registration.

01 What you asked for
02 The build
03 Registration
04 Timeline and fees

Odoo Ready Partner

Discussion draft · October 2026

→ or click to begin · O all slides

what you asked for

Five pieces of work, one condition.

Click a piece to open its slide

1. **Six downloadable Excel reports** — General Ledger, General Journal, Cash Receipts, Sales, Cash Disbursement, Purchase — Slide 4
2. **Printable PDF Acknowledgement Receipts and Sales Invoices** — Including reprinting — Slide 5
3. **Production deployment and go-live support** — Configuration validation, migration — Slide 6
4. **Recorded video tutorials** — Report generation, AR printing and reprinting, user navigation — Slide 7
5. **BIR CAS documentation and registration assistance** — Preparing the papers, supporting the application — Slide 8

THE CONDITION

"Retain our current setup and customise only the required features, where feasible."

Agreed. Configure first, build only the gaps, and touch nothing that already works.

AND YOU ASKED US FOR

- A fee breakdown by line — Slide 10
- An estimated timeline — Slide 9
- Our Odoo and BIR experience — Slide 11

From your request for quotation, 20 Oct 2026, and our call that afternoon

how we keep it light

Keep what works. Build only the gap.

Keep | Configure | Build | **All three**

BUILD

One small module of our own

- Six books as .xlsx, by date range
- Sales Invoice and Acknowledgement Receipt layouts
- Reprint control: marked, counted, logged

CONFIGURE

Settings in your Odoo, no code

- Company TIN, branch and address on documents
- Journals and number series per document
- Who may print, reprint and export

KEEP

Your Odoo as it runs today

- Your chart of accounts and entries
- Your users and their habits
- Your data and history

Most of the work is configuration. The module adds reports and print layouts only: it never changes how an entry is posted.

On Odoo 20? Its release notes add a Book of Accounts for CAS and CBA in the Philippines. We check it against your six books and build only what it leaves out.

"Where feasible" depends on hosting. Odoo Online runs only standard apps and Studio; a custom module needs Odoo.sh or your own server. We check yours first.

piece 1 · the books

Six books, one click each.

Download the sample workbook (.xlsx)

- **General Journal** — every entry, both sides
- **General Ledger** — per account, running balance
- **Cash Receipts Journal** — money in
- **Sales Journal** — invoices issued
- **Cash Disbursement Journal** — money out
- **Purchase Journal** — bills received

Accounting · Reporting · CAS books

BOOK: Cash Receipts Journal | PERIOD: 1–31 Oct 2026 | BRANCH: Head office

Export .xlsx

Moneybees Forex Corporation — Cash Receipts Journal · October 2026

Date	AR no.	Received from	TIN	Cash Dr	Receivable Cr	Revenue Cr
02 Oct	AR-000101	Customer A	-	1,500.00	-	1,500.00
03 Oct	AR-000102	Customer B Trading	000-111-222-00000	120,000.00	120,000.00	-
09 Oct	AR-000103	Customer C	-	2,250.00	-	2,250.00
14 Oct	AR-000104	Customer D Corp.	000-333-444-00000	64,000.00	64,000.00	-
Total				**187,750.00**	**184,000.00**	**3,750.00**

✓ CRJ_2026-10.xlsx

4 lines · totals tie to the ledger

✓ Illustrative · sample entries, TINs and amounts; columns agreed with you before the build

piece 2 · invoices and receipts

Print once, reprint under control.

Sales Invoice | Acknowledgement Receipt

MONEYBEES

SALES INVOICE
No. SI-000046

Moneybees Forex Corporation · TIN 000-000-000-00000 (sample) · Head office address

REPRINT · COPY 2

SOLD TO / RECEIVED FROM
Customer A (sample)

DATE
02 Oct 2026

DESCRIPTION	QTY	UNIT COST	AMOUNT
Service fee · sample	1	₱1,339.29	₱1,339.29

VATable sales	₱1,339.29
VAT · sample	₱160.71
Total amount due	**₱1,500.00**

VAT-registered seller · TIN with branch code · buyer TIN when required

Authorised signature

Sales Invoice · the main proof of sale

Printed from Odoo · page 1 of 1

Print | Reprint

SIGNED IN AS
Cashier (sample)

Print log · SI-000046 — 3 prints

Original	10:17	Cashier (sample)
Reprint 1	10:20	Customer copy lost
Reprint 2	10:23	Printer jam

- ✓ The first print is the **original**; every later one carries a **reprint mark** and its copy number
- ✓ Reprints ask for a **reason** and are limited to the roles you choose
- ✓ The number series never skips or repeats: a reprint is **the same document**, not a new one

✓ Illustrative · sample layout and amounts; final fields follow the BIR requirements we confirm with you

piece 3 · deployment

Test on a copy, then go live.

→ moves the work along

1 **Review**
Your Odoo version, hosting and modules

2 **Staging**
A copy of your database to build on

3 **Validate**
Your team checks books and prints

4 **Go live**
Install on production, then watch

Production — your live Odoo

Module installed · live

CAS module

Staging copy — for building and testing

Kept for future changes

CAS module

Configuration validation — 6 of 6

- [x] Odoo version, edition and hosting confirmed
- [x] Company TIN, branches and number series checked
- [x] Six books tie to the trial balance, per month
- [x] Invoice and receipt prints signed off
- [x] Opening balances and history migrated and matched
- [x] Users and print rights set on production

Step **4** of 4 · **production is never the test bench**

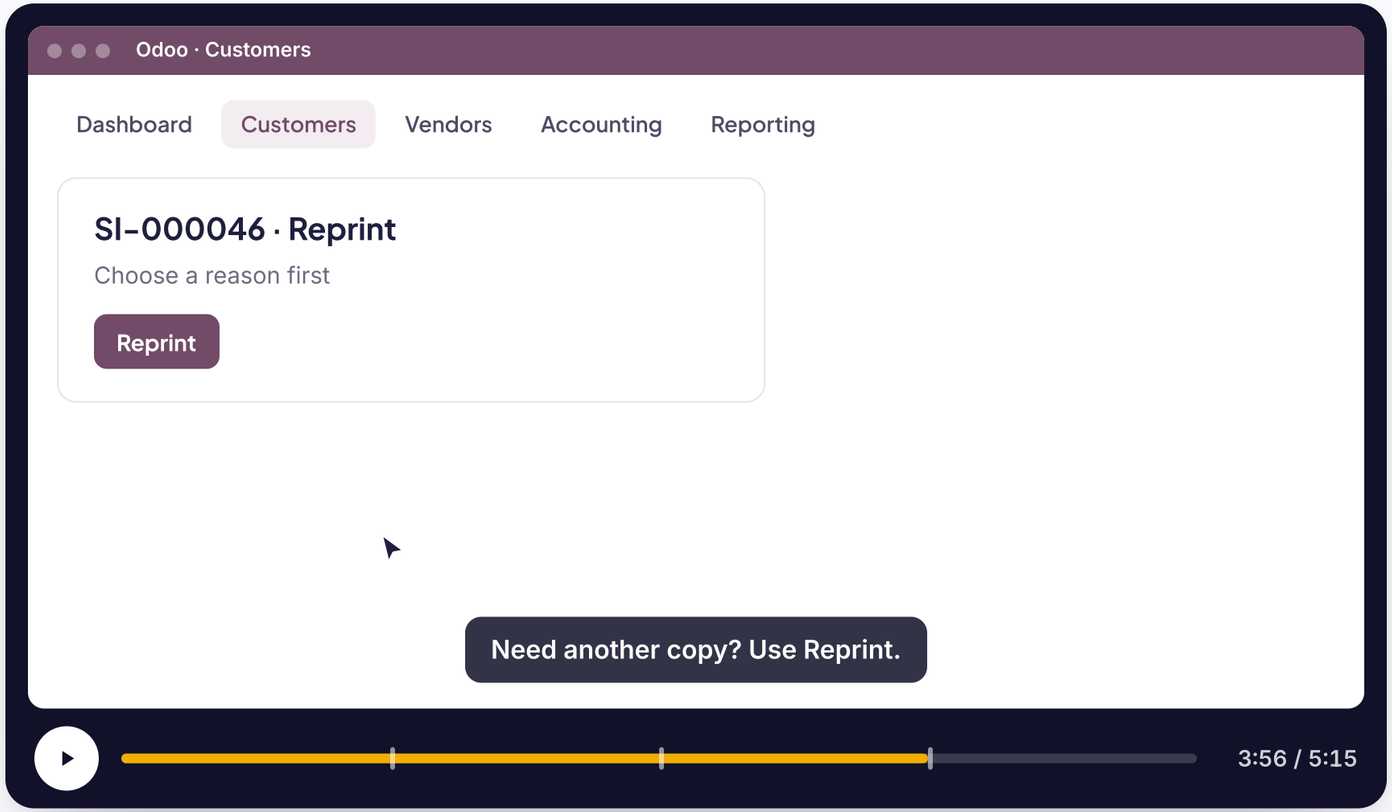

piece 4 · training

Three tutorials, recorded on your screens.

1. **Generating the six books**
   Period, branch, export, where the file goes

2. **Printing and reprinting AR and SI**
   Original, reprint with reason, the log

3. **Finding your way in Odoo**
   Menus, search, filters, your own views

✓ Recorded on **your** staging copy, with your menus · narrated in English · yours to keep and share inside Moneybees

✓ Illustrative · a mock player; the real videos are recorded after validation

piece 5 · bir cas registration

Your application, papers ready.

Everything | TechNext prepares | Moneybees signs and files

1. **Confirm today's checklist with your RDO** — TechNext
   Under RMC 5-2021 and RMO 9-2021, filed through ORUS
2. **System description and process flows** — TechNext
   How an entry becomes a book line, an invoice and a receipt
3. **Sample printouts and the audit trail** — TechNext
   Six books, Sales Invoice, Acknowledgement Receipt, from your own system
4. **Reports specifications and the Annex B checklist** — TechNext
   Each standard functional and technical requirement, answered
5. **Sworn statement, signed and filed** — Moneybees
   Your officers sign; the application goes in under your TIN
6. **Acknowledgement Certificate, then post-evaluation** — Both
   No pre-demo; we stand beside you for any later BIR review

CAS documentation pack 5 of 5

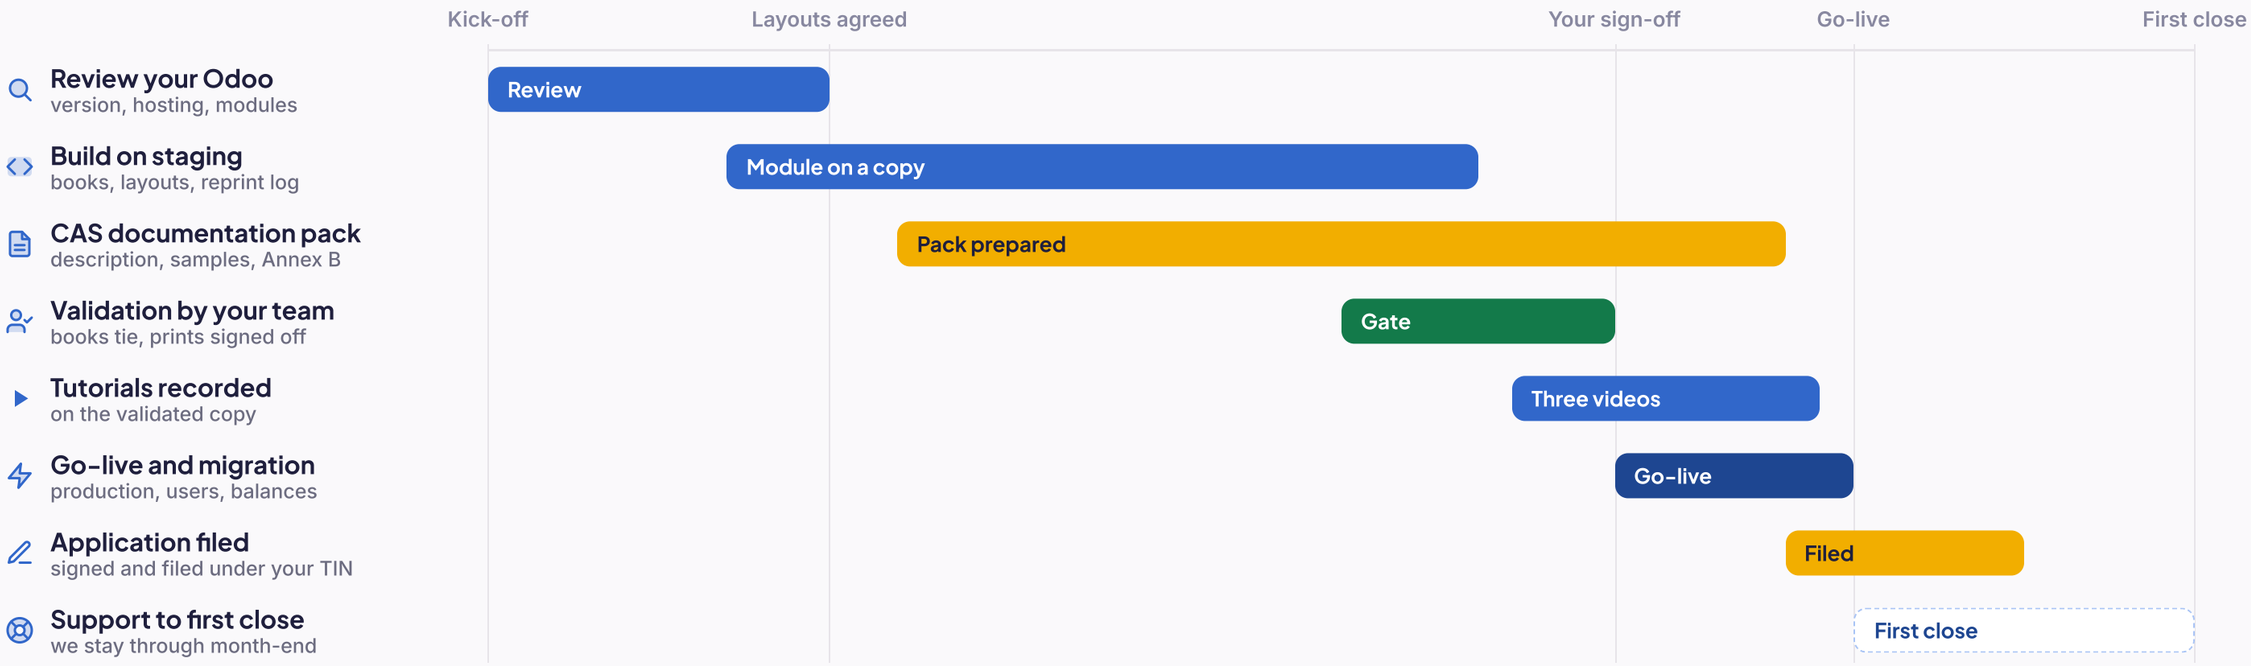

- System description summary ✓
- Sample books, SI and AR printouts ✓
- Printed audit trail ✓
- Reports specifications and Annex B ✓
- Sworn statement, for your signature ✓

Straight talk: the BIR registers your system for your business; no provider can promise the outcome, and we never claim to be "BIR-accredited". What we promise is a complete, consistent pack and a team beside you until it is done.

estimated timeline

Build and paperwork run side by side.

Weeks fixed in the quotation, **after the review**

✓ KICK-OFF
Access to your Odoo and one sample month

✓ GATE
Your sign-off on books and prints before go-live

✓ AFTER GO-LIVE
We stay through your first month-end close

Order of work · bar lengths are indicative, not durations

the breakdown you asked for

Five lines, nothing hidden.

One-time | Recurring

LINE	WHAT IT COVERS	FEE
Development	The CAS module: six books in .xlsx, SI and AR layouts, reprint control and log	In the quotation
Registration assistance	Documentation pack, RDO coordination, support through BIR questions	In the quotation
Deployment	Staging, configuration validation, migration, go-live and first close	In the quotation
Training	Three recorded tutorials on your screens, plus a live walkthrough	In the quotation
Odoo subscription	Paid to Odoo as today; nothing changes unless your hosting must	Your current plan
Support after go-live	Optional: fixes, BIR rule changes, new reports, by the month	In the quotation
One-time total	Development, registration assistance, deployment and training	**In the quotation**

✓ Not on our invoice

- ✗ BIR fees and taxes, if any apply: paid by Moneybees directly
- ✗ New Odoo licences: none needed for this scope
- ✗ Hidden extras: changes outside this scope are quoted first, never billed after

Figures in TechNext's formal quotation, sent with this deck · in Philippine pesos

our experience

Odoo advisers who read the BIR's own papers.

BIR work in Odoo

Odoo's Philippine localisation: 2307, SLSP, SAWT, QAP and 2550Q from posted entries, and the gaps around it we build for clients.

Our guide to the BIR rules for your system

Next door in Taguig

Our main development and consulting hub is in Taguig City, minutes from your office: we can sit with your accountants, not just call.

Odoo developers, consultants and finance specialists

Odoo Ready Partner

Twelve questions to answer together.

0 answered · **0** to follow up

Copy follow-ups

YOUR ODOO

1. Which Odoo version and edition, and is it on Odoo Online, Odoo.sh or your own server?
2. Which apps and custom modules are installed, and who built them?
3. How many branches issue invoices or receipts, each with its own series?

BOOKS AND DOCUMENTS

4. VAT or percentage tax, and the columns your accountant wants per book?
5. Do you have your current invoice and receipt formats we should match?
6. Who may reprint, and should a reason be required every time?

REGISTRATION

7. Which RDO, and is any CAS application already filed or in progress?
8. Are you covered by e-invoicing now, or in a later group?
9. From which date should the books start: a new month or your fiscal year?

GO-LIVE AND TRAINING

10. What must migrate: opening balances only, or past transactions too?
11. Your target go-live date, and any month-end you must avoid?
12. How many users print, export or approve, and who signs off validation?

Click once: **answered** · twice: **follow up** · three times: clear

TechNext | MONEYBEES

next step

Let's open your Odoo together.

One session with your accountant: we look at your version and hosting, agree the book columns, and send the formal quotation with the timeline fixed.
