why clients rely on us

Trusted. Reliable. Expert.

Each word, with what stands behind it

Trusted

Advice that puts your business first

- **Process before product.** No app is recommended until we've seen how the work is done today.
- **Honest about fit.** If a step is better left out of Odoo, the recommendation says so.
- **Advice you own.** The written scope is yours to act on, with TechNext or without.

Reliable

The same people, start to finish

- **One adviser throughout.** The person who maps your process leads the set-up, trains your team and stays after go-live.
- **Standard before custom.** Custom code only where it earns its keep, built to survive upgrades.
- **Not a ticket queue.** Month-end questions and upgrades go to someone who knows your business.

Expert

Specialists on every side of the business

- **Six adviser specialisms,** from finance and supply chain to AI and web, each as deep in the business as in Odoo.
- **Odoo developers, consultants and architects** in Taguig City; **AI engineers** in Ho Chi Minh City.
- **Eight industries** and four core AI disciplines, on Odoo 20.

Odoo Ready Partner | **90+** enterprise clients | **25+** countries | **3** offices, one team

why an adviser

Advice first. Software second.

Most ERP projects go wrong before the software is opened, when nobody asks how the business actually runs. Our advisers start there.

A SALES DEMO ASKS

- ? ~~Which modules do you want?~~
- ? ~~How many users?~~
- ? ~~When do you want to go live?~~

A TECHNEXT ADVISER ASKS

- ? Where does an order wait the longest?
- ? What gets typed twice?
- ? Which number do you never quite trust?

FIRST STEP

A conversation about your process, not a product demo

YOU LEAVE WITH

A written recommendation you own

AFTER GO-LIVE

The same adviser, not a ticket queue

where the talent sits

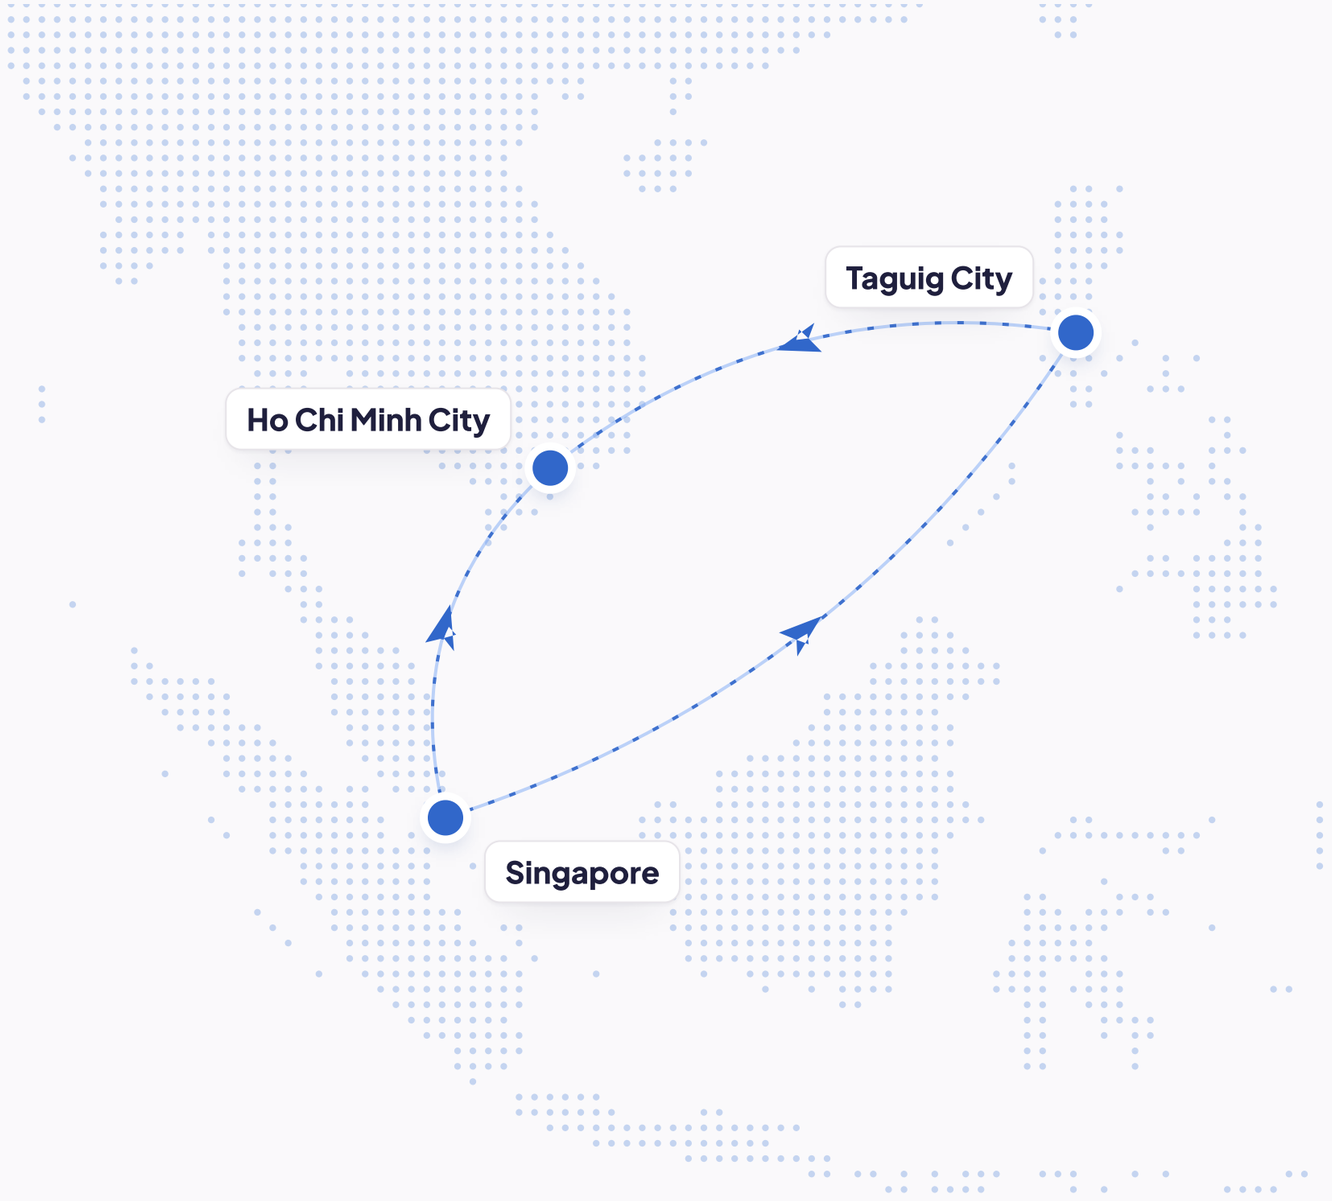

Three offices, one team.

Advising 90+ enterprise clients in 25+ countries, on-site in Singapore and online everywhere else.

SG **Singapore HQ**
Sales, discovery workshops and on-site work with clients in Singapore.
Advisers · discovery · on-site

PH **Taguig City hub**

Consultants · developers · architects

VN **Ho Chi Minh City hub**
Our AI engineering hub: the engineers behind TechNext's enterprise AI, on the same projects.
AI engineers

Industry expert practice.

- Finance & accounting
- Sales, CRM & service
- Supply chain & inventory
- Manufacturing & projects
- AI & automation
- Website & brand

FINANCE & ACCOUNTING ADVISER

For the people who close the month. How the books, banks and tax should run once everything is in one database.

- ✓ Chart of accounts and journals that fit how you report
- ✓ Bank feeds, reconciliation and a shorter month-end
- ✓ GST / VAT set-up, multi-currency and multi-company
- ✓ What to migrate: opening balances or full history

A QUESTION YOU'LL HEAR IN THE FIRST CALL

Which reports does your accountant or auditor ask for every month, and how long do they take today?

try it

Tell us your story. We'll tell you who joins.

PICK ONE PROBLEM OR SEVERAL

- [x] Month-end takes too long
- [ ] Quotes wait for approval
- [x] Stock we don't trust
- [ ] Job margins arrive too late
- [ ] The same questions, answered by hand
- [ ] The website doesn't bring enquiries
- [ ] Odoo is live, but people work around it

On a bigger project, two or three advisers work on the same scope, so finance, sales and stock are decided together.

ADVISERS

- [x] Finance
- [ ] Sales & CRM
- [x] Supply chain
- [ ] Operations
- [ ] AI
- [ ] Web & brand

BEHIND THEM

PH	PH	VN	SG
Consultants	Developers	AI engineers	On-site
Taguig City	Taguig City	Ho Chi Minh City	Singapore

2 Advisers on one scope, decided together, with consultants in Taguig City.

how an adviser works with you

Listen. Advise. Implement. Stay. The same adviser throughout.

STEP 4

Stay

After go-live, month-end questions, upgrades and new ideas go to someone who already knows your business.

The same adviser, not a ticket queue

WHO'S ON IT

- **Your adviser** — Every step
- **Taguig City** (PH) — Consultants, developers
- **Ho Chi Minh City** (VN) — AI engineers
- **Your team** — Process owners, key users

The adviser who set it up, backed by the same team in Taguig City.

the crafts behind the advice

One team, every skill the solution needs.

Point at a craft to see where it sits

ODOO ERP

- Discovery and process mapping
- Implementation and configuration
- Custom modules that survive upgrades
- Integration: banks, payments, stores
- Data migration

INDUSTRIES OUR ADVISERS KNOW

Medical · Travel · Retail · Ecommerce · Construction · F&B · Manufacturing · Health & Wellness

how we advise

Four rules our advisers keep.

01

Process before product

No app is recommended until the adviser has seen how the work is done today.

02

Standard before custom

If Odoo already does it well, we say so. Custom code only where it earns its keep and survives upgrades.

03

Honest about fit

If a step is better left out of Odoo, or not worth automating yet, the recommendation says that too.

04

Advice you own

The written scope is yours to act on, with TechNext or without.

TechNext

next step

Bring one problem to an adviser.

Month-end that takes too long, stock you don't trust, quotes that wait for approval. Tell us one in a 30-minute discovery call, and we'll recommend how to solve it, and say why.
