*what we understand*

# Three guesses about Laguna Metts. Tell us which are wrong.

INDUSTRY **A manufacturer**

TODAY **A Thai ERP with localisation challenges**

NEED **An ERP set up for BIR requirements**

## Our guesses

True, or not us?

| | | | |
|---|---|---|---|
| 1 | PH forms and ATC codes are kept outside the ERP | True | Not us |
| 2 | Thai-format reports are re-keyed for the BIR | True | Not us |
| 3 | Support for PH changes is slow | True | Not us |

✓ From our call notes · guesses to confirm with you

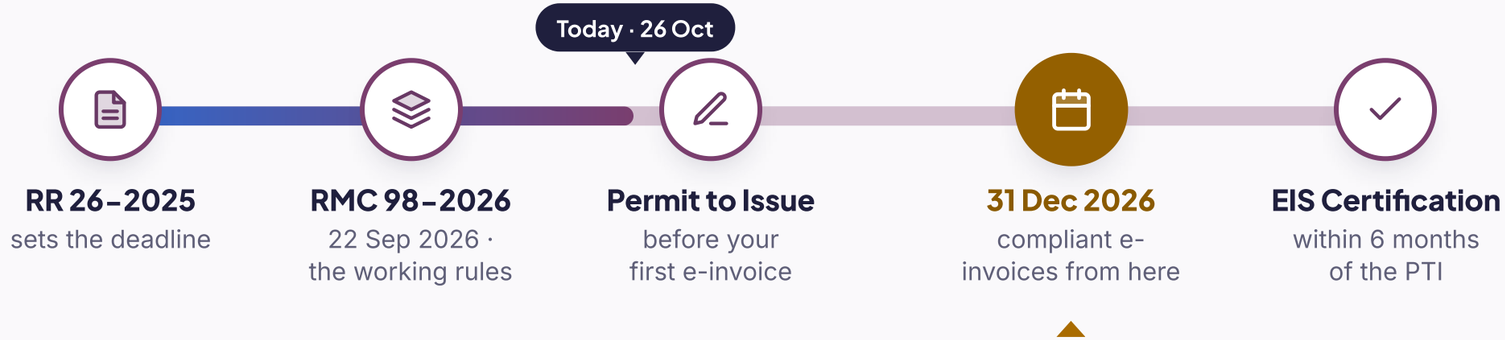

*the rules in plain words*

# From 31 December 2026, covered taxpayers e-invoice.

**31 DECEMBER 2026**

**66**

**days to go**

**31 Dec 2026.** From this date, covered taxpayers issue compliant e-invoices. An issued e-invoice can't be deleted or changed.

**Who it covers**

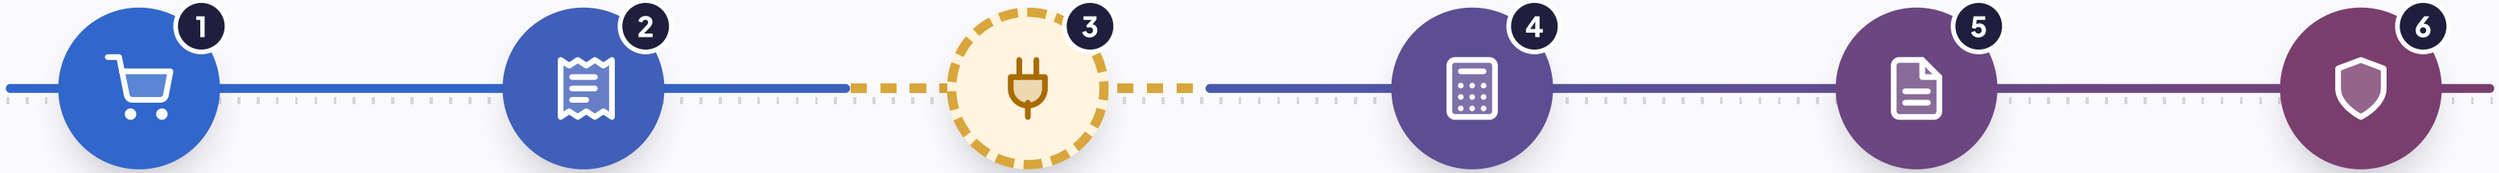

- E-commerce or internet sellers
- Large Taxpayers Service
- Large taxpayers (RA 11976, RR 8-2024)
- CAS or CBA users with invoicing software
- Micro taxpayers: exempt

Your accountant or RDO confirms which group you are in. Head office and branches are covered.

RR 26-2025 · RMC 98-2026 · general guidance, not tax advice: confirm with your accountant or the BIR

*your pipeline*

# Your compliance flow, in one Odoo.

**Order**
The sale starts here

**Invoice**
Issued once, then locked

**EIS**
Assessed with you

**Books**
CAS and CBA books

**BIR forms**
2307, SLSP, SAWT, QAP, 2550Q

**Audit trail**
Who, what and when

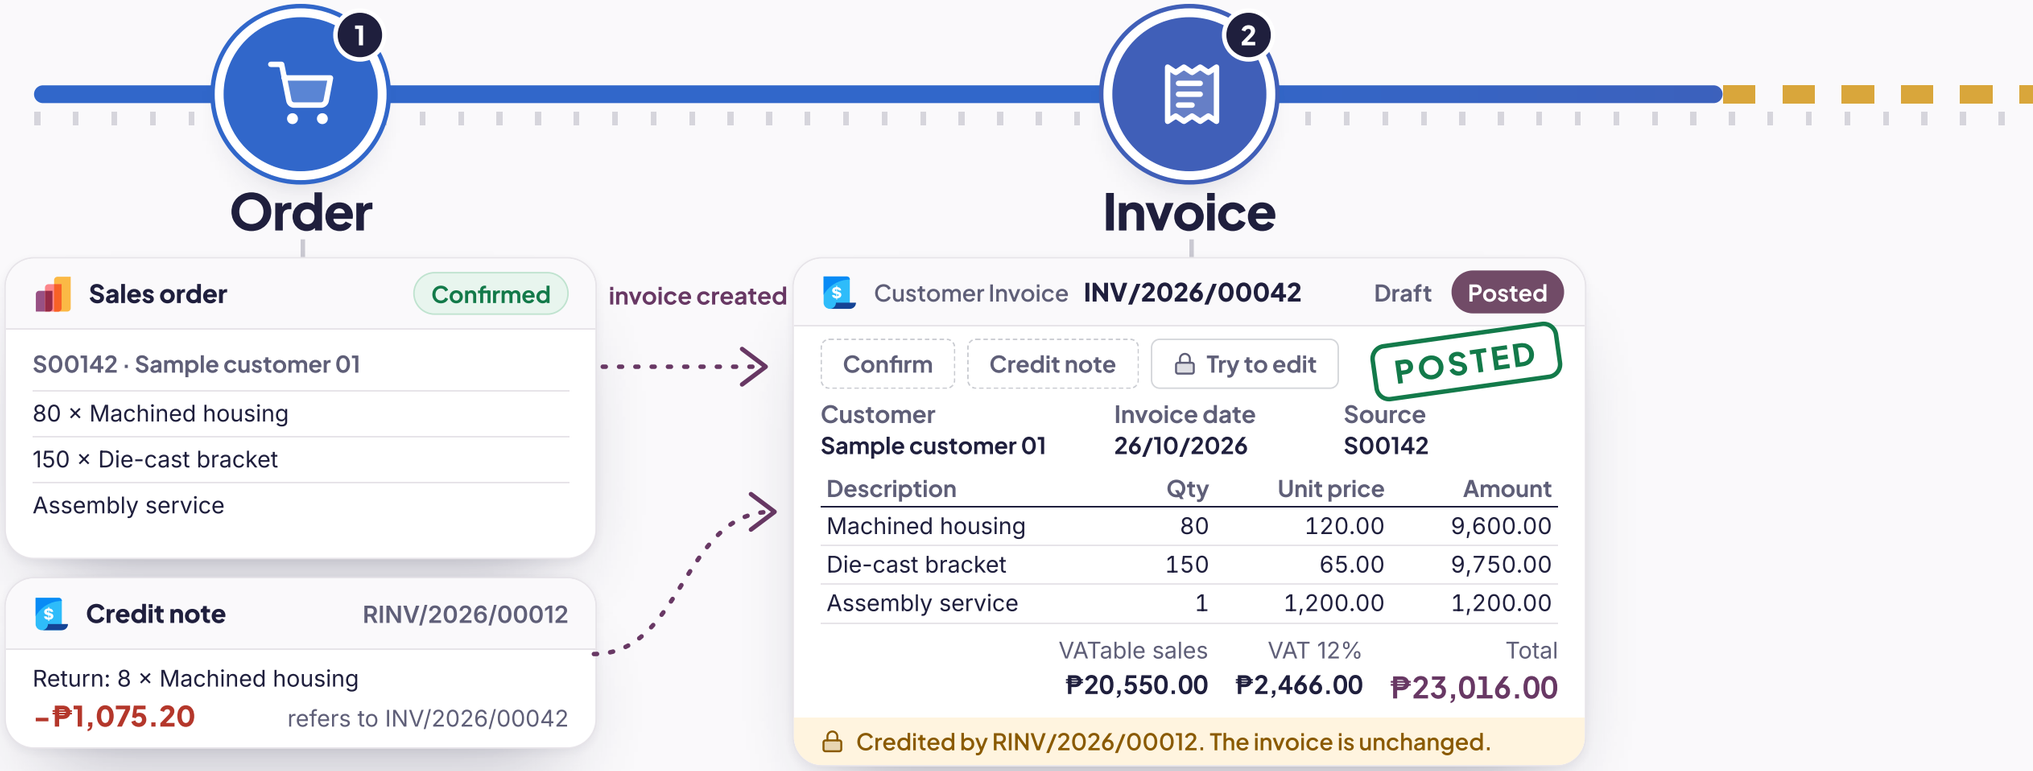

**Lit stations** are part of the Odoo set-up we propose

**Dashed station**: to assess with you, quoted separately

From the sale to the audit trail: six stations, one Odoo.

*one invoice*

# One invoice, issued once. Corrected, never edited.

1 Draft | 2 Confirm | 3 Credit note | Try to edit

A return arrives. The issued invoice stays untouched: a credit note lowers it and refers back.

✓ Sample customer, numbers and prices, labelled as sample · not data from Laguna Metts Corporation

*eis and books*

# The EIS we assess. The books we set up.

3 EIS

4 Books

**BIR EIS connection** — to assess

**Not built into Odoo, and not built by TechNext.**

- What your business must send to the EIS
- The options to connect, assessed with you
- A separate quote, once we know the option

**No software is BIR-accredited.**

*later phases*

# Accounting first. More when you're ready.

Phase 1 · now

## Accounting, with BIR compliance

Phase 1: invoices, books and BIR forms in one Odoo, as in the flow you just saw. Everything else waits until you choose it.

**Lit** is in the first proposal. The other apps are options, added in your order and at your pace.

✓ Options for later phases, not part of the first proposal

*for our call*

# Eight questions we need answered.

**0** answered · **0** to follow up

Copy follow-ups

1. Which Thai ERP do you run, and which version?
2. What do you do outside it today: spreadsheets, re-keyed reports, paper forms?
3. Who maintains it: your team, the vendor or a local partner?
4. Which BIR forms and books do you prepare, and who prepares them?
5. Where do you stand with a CAS or CBA registration and a Permit to Issue?
6. What does your accountant say the system has to cover?
7. How much history should move across: open items, balances, past years?
8. Which dates constrain the move besides 31 December?
