TechNext | MOL Mitsui O.S.K. Lines

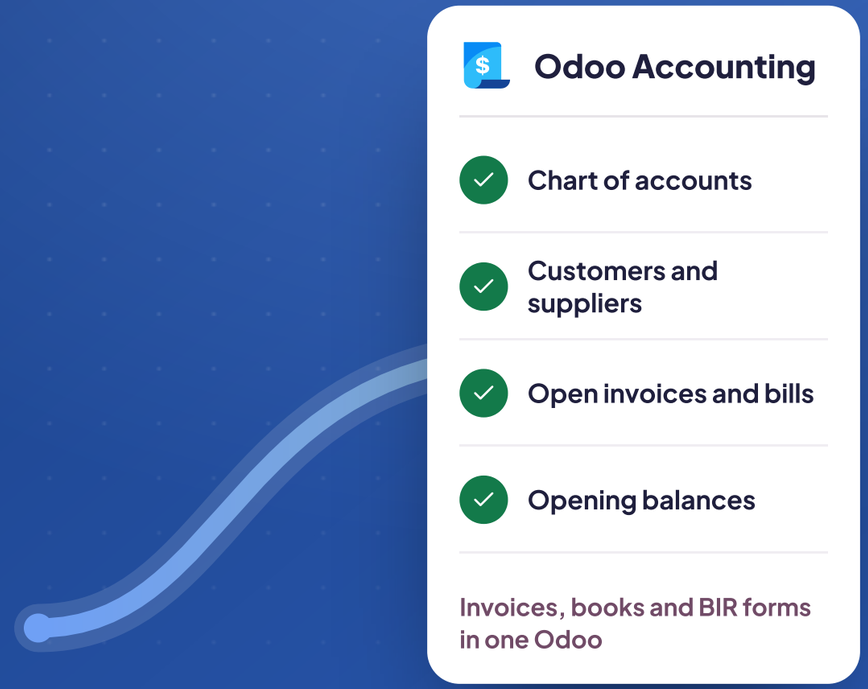

for mol enterprise philippines

Autocount ends in December. Your books carry on.

Invoices, books and BIR forms in one Odoo, and a planned move across from Autocount.

01 What we understand · 02 The rules · 03 Your pipeline · 04 Next steps

Odoo Ready Partner · Discovery draft · October 2026

what we understand

Three guesses about MOL Enterprise. Tell us which are wrong.

INDUSTRY **A logistics company**

TODAY **On Autocount until December 2026**

NEED **Needing a new ERP and BIR compliance**

Our guesses

True, or not us?

1	A December renewal decision	True	Not us
2	BIR forms prepared outside Autocount	True	Not us
3	Several entities or branches to set up	True	Not us

✓ From our call notes · guesses to confirm with you

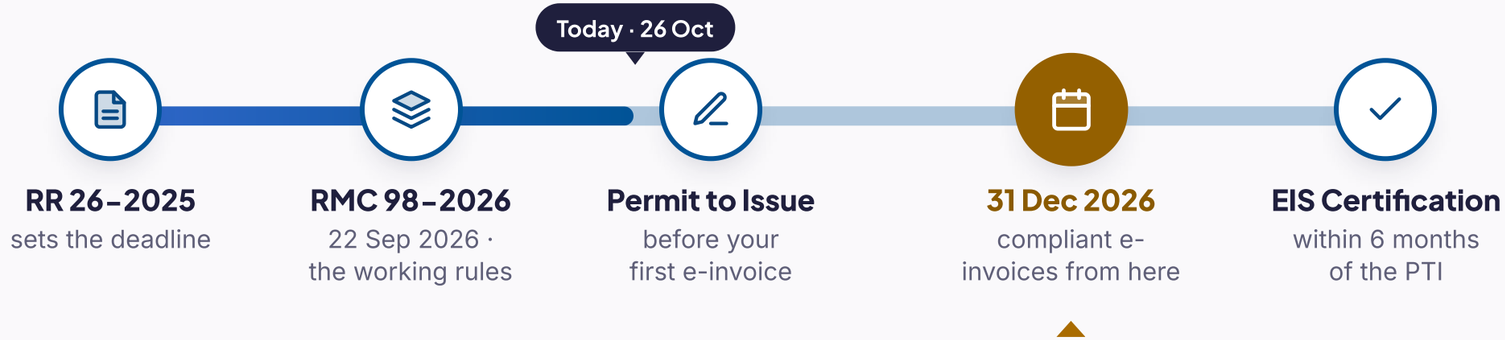

the rules in plain words

From 31 December 2026, covered taxpayers e-invoice.

31 DECEMBER 2026

66

days to go

31 Dec 2026. From this date, covered taxpayers issue compliant e-invoices. An issued e-invoice can't be deleted or changed.

Who it covers

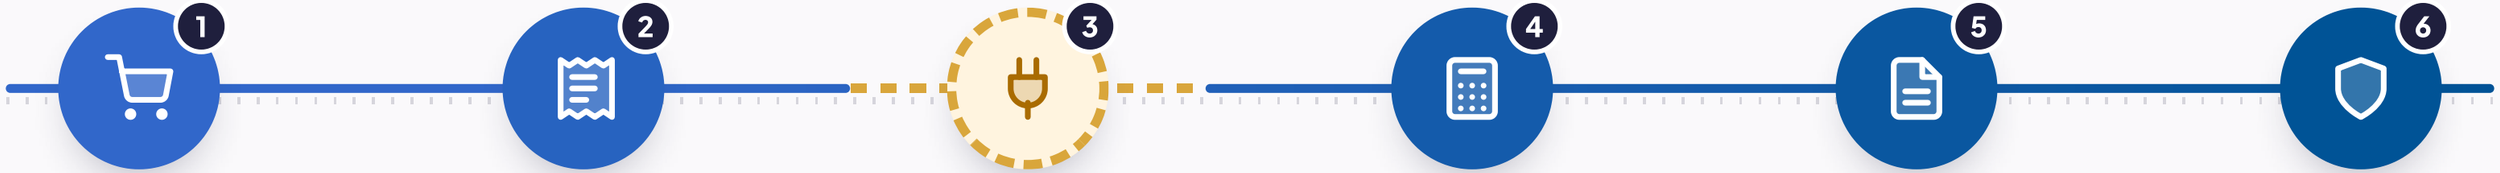

- E-commerce or internet sellers
- Large Taxpayers Service
- Large taxpayers (RA 11976, RR 8-2024)
- CAS or CBA users with invoicing software
- Micro taxpayers: exempt

Your accountant or RDO confirms which group you are in. Head office and branches are covered.

RR 26-2025 · RMC 98-2026 · general guidance, not tax advice: confirm with your accountant or the BIR

your pipeline

Your compliance flow, in one Odoo.

1 Order
The sale starts here

2 Invoice
Issued once, then locked

3 EIS
Assessed with you

4 Books
CAS and CBA books

5 BIR forms
2307, SLSP, SAWT, QAP, 2550Q

6 Audit trail
Who, what and when

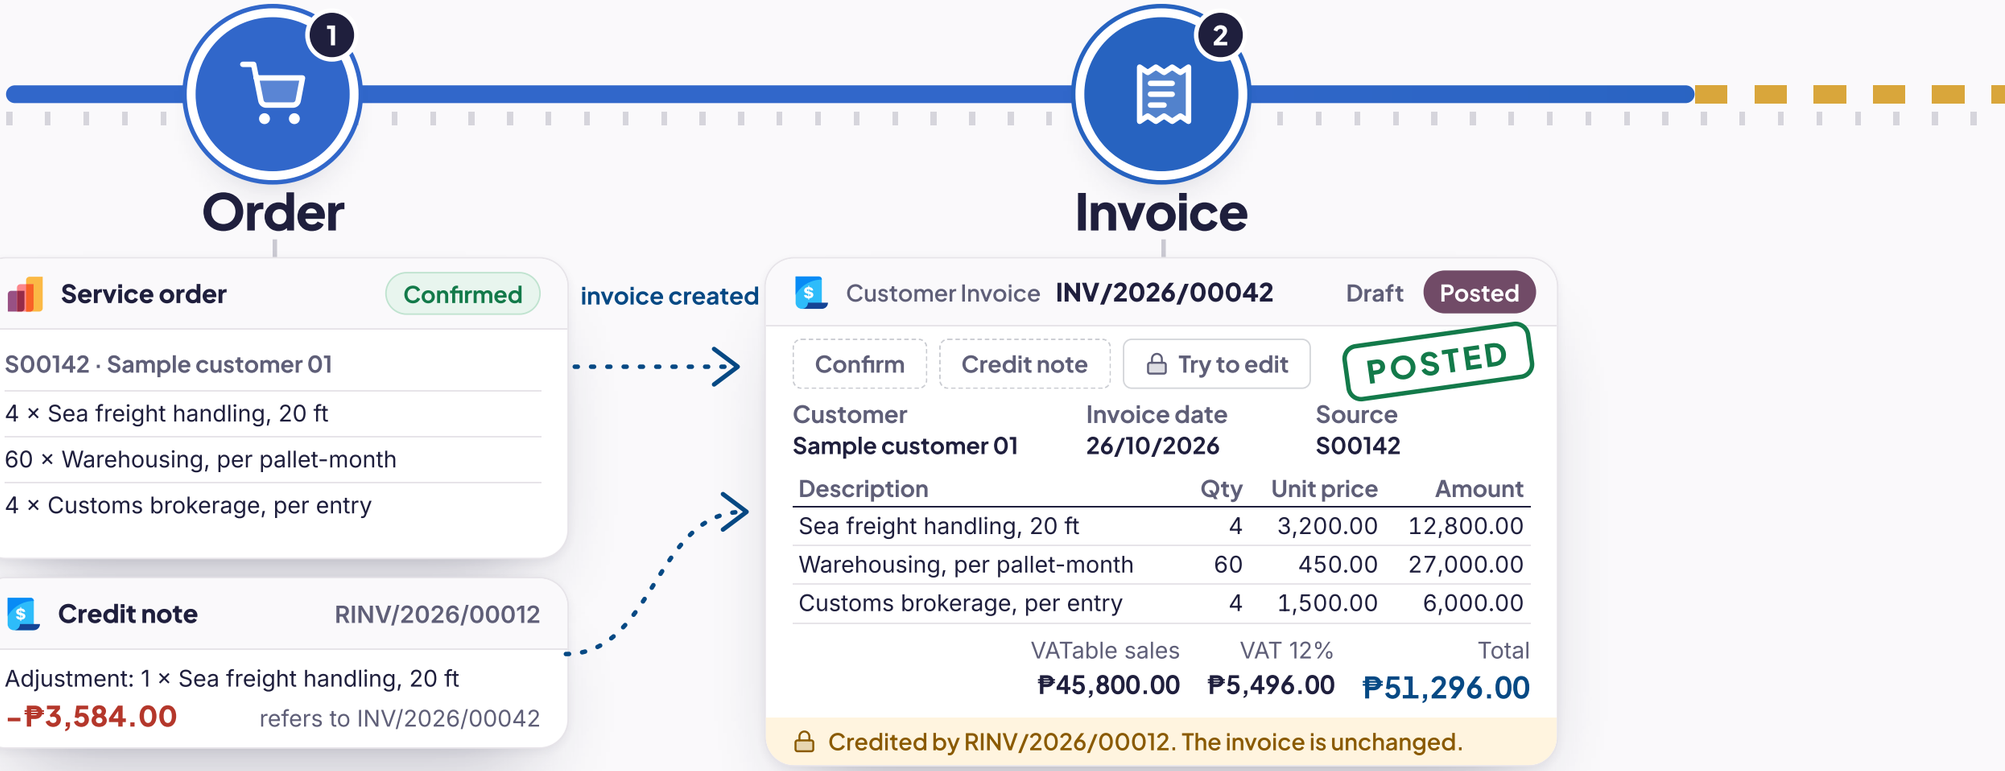

Lit stations are part of the Odoo set-up we propose

Dashed station: to assess with you, quoted separately

From the sale to the audit trail: six stations, one Odoo.

one invoice

One invoice, issued once. Corrected, never edited.

1 Draft | 2 Confirm | 3 Credit note | Try to edit

A billing adjustment arrives. The issued invoice stays untouched: a credit note lowers it and refers back.

✓ Sample customer, numbers and prices, labelled as sample · not data from MOL Enterprise Philippines

eis and books

The EIS we assess. The books we set up.

3 EIS

4 Books

BIR EIS connection — to assess

Not built into Odoo, and not built by TechNext.

- What your business must send to the EIS
- The options to connect, assessed with you
- A separate quote, once we know the option

No software is BIR-accredited.

Book of Accounts — CAS and CBA · sample

Date	Entry	Debit	Credit
26 Oct	**INV/2026/00042** · Receivables	51,296.00	
26 Oct	**INV/2026/00042** · Sales		45,800.00
26 Oct	**INV/2026/00042** · Output VAT 12%		5,496.00
27 Oct	**RINV/2026/00012** · Sales returns	3,200.00	
27 Oct	**RINV/2026/00012** · Output VAT 12%	384.00	
27 Oct	**RINV/2026/00012** · Receivables		3,584.00

✓ **6** entries · debits equal credits

You register at your RDO. We prepare the pack with you.

✓ Illustrative · sample entries from the sample invoice

forms and trail

From the books to BIR forms, with a trail.

5

BIR forms

BIR FORMS AND LISTS · ODOO 20 PH LOCALISATION

2307	Certificates on supplier bills
SLSP	Sales and purchases lists
SAWT	Summary alphalist of withholding
QAP	Quarterly alphalist of payees
2550Q	Quarterly VAT summary

6

Audit trail

Audit trail sample

09:02	**Billing clerk**	Posted INV/2026/00042
09:05	**Billing clerk**	Tried to edit INV/2026/00042: locked
09:11	**Accountant**	Issued credit note RINV/2026/00012
09:20	**Accountant**	Attached a 2307 to a supplier bill
09:34	**Accountant**	Exported the SLSP list (DAT)

Every change is kept: who, what, when.

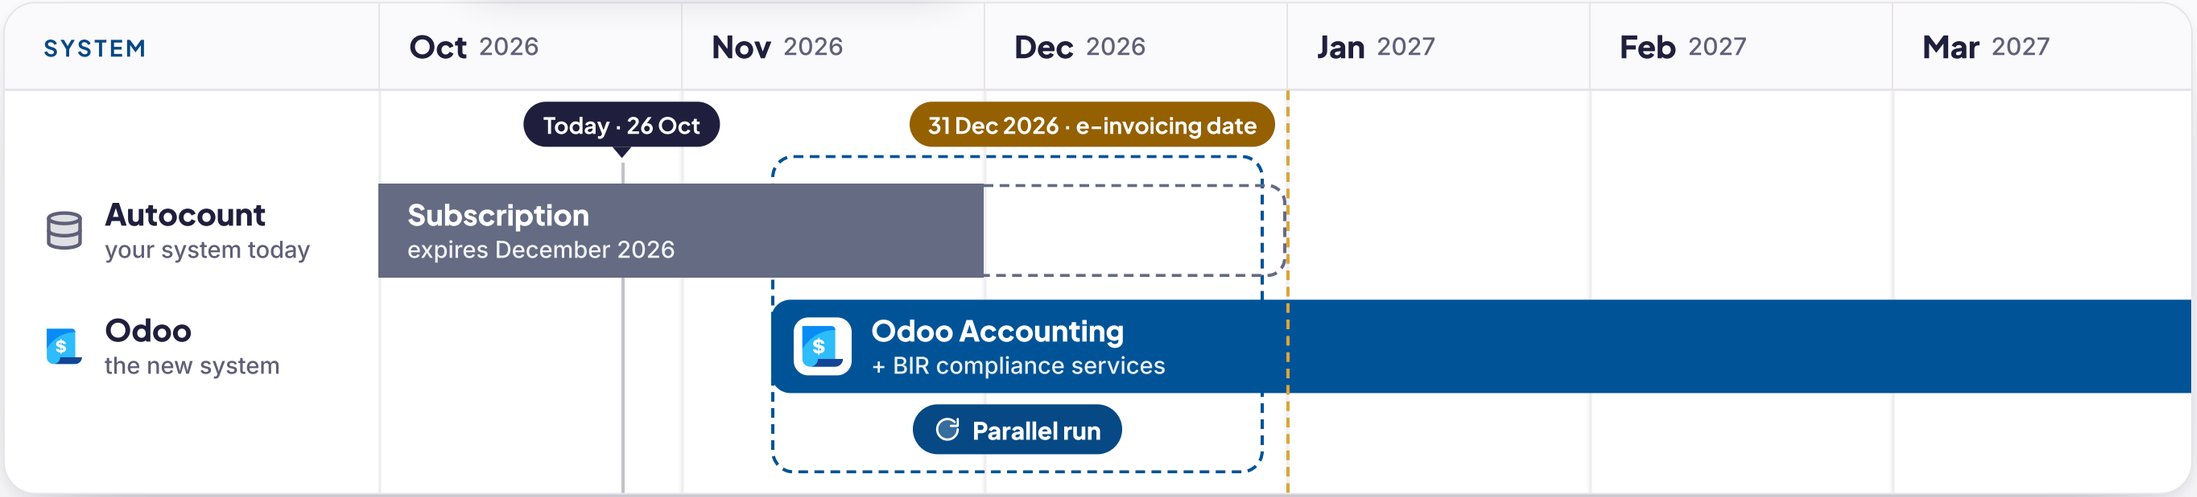

The forms come out of the same books. Your accountant reviews them before anything is filed.

✓ Illustrative · forms and lists as Odoo 20 PH localisation lists them · sample entries

moving off autocount

Moving off Autocount: start before it ends.

Two ways through December: Without a plan | **With a plan**

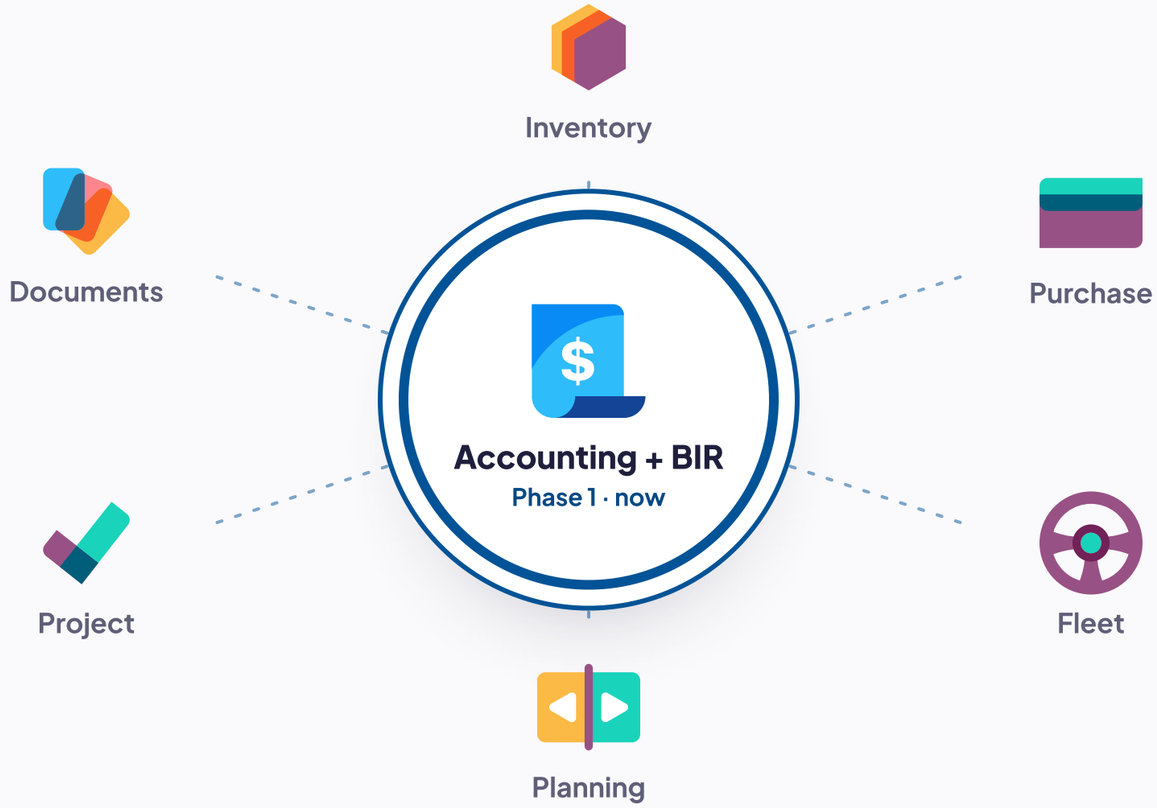

1. **Export and map** — Data out, accounts mapped
2. **Import and reconcile** — Checked against Autocount
3. **Parallel run** — Both systems, side by side
4. **One cut-over date** — Fixed in the proposal

✓ With a plan, Odoo is already running in parallel when Autocount ends. The goal is no gap between systems.

✓ Illustration only · December 2026 is your own date · every other date is fixed in the proposal after discovery

later phases

Accounting first. More when you're ready.

Phase 1 · now

Accounting, with BIR compliance

Phase 1: invoices, books and BIR forms in one Odoo, as in the flow you just saw. Everything else waits until you choose it.

Lit is in the first proposal. The other apps are options, added in your order and at your pace.

✓ Options for later phases, not part of the first proposal

for our call

Eight questions we need answered.

0 answered · **0** to follow up

Copy follow-ups

1. On which date in December does your Autocount subscription end, and what are the renewal options?
2. How many entities or branches should the new system carry?
3. Roughly how many invoices, bills and journal entries a month?
4. Which BIR forms, lists and books do you prepare today, and in which tool?
5. Who prepares them: your finance team, an outside accountant, or both?
6. Do you already hold a registered CAS or CBA, or a Permit to Issue?
7. What has your accountant or RDO said about which e-invoicing group covers you?
8. Which Autocount history should come across: open items, balances, past years?
