where time leaks

Five hand-offs we would like to remove.

TODAY · OUR HYPOTHESIS

1. **Time-in is typed by the teacher**
   Three forms; any time can be entered, from anywhere
2. **Lates and overtime are counted by hand**
   From three response lists, per cut-off
3. **Leave is asked for on paper or by message**
   Balances kept in a separate list
4. **Payroll re-keys hours every cut-off**
   From forms, leave lists and overtime notes
5. **BIR and loan figures are rebuilt yearly**
   1601-C, 2316, SSS and Pag-IBIG loans by spreadsheet

WITH ODOO 20

- **The system stamps the time**
  Kiosk at the gate, or check-in inside Odoo for online classes
- **Rules count them**
  Grace periods and overtime rulesets against each working schedule
- **Leave is a request with a balance**
  The division head approves; the balance updates itself
- **The pay run reads approved time**
  Attendance and time off already in the same database
- **Reports come from the payslips**
  Odoo 20's Philippine payroll: 1601-C, 2316, 1604-C, Alphalist, loan deductions

FRONT DOOR · OPTIONAL

- Website

One record per teacher: **schedule, time-ins, leave and payslips** in the same place

TIME

Attendances

Time-ins stamped by the system: a kiosk at the gate with badge or PIN, or check-in inside Odoo for online classes. Grace periods and overtime rules count lates and extra hours.

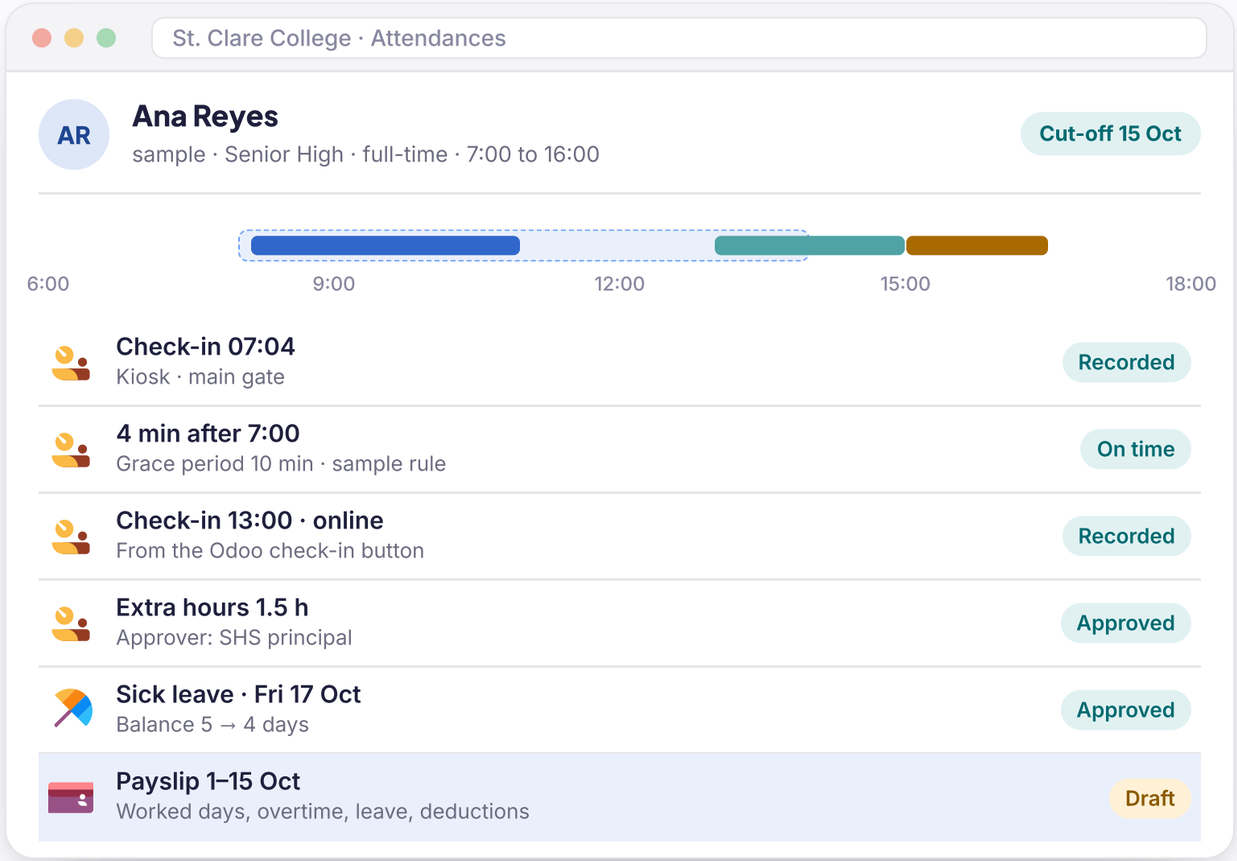

PHASE **Phase 2 · attendance**

the whole flow, once

One teacher, time-in to payslip.

▶ Play the flow

1. **Checks in at the campus kiosk, 7:04**
   Attendances · kiosk, badge or PIN
2. **Inside the grace period: on time**
   Attendances · tolerance on the schedule
3. **Afternoon class online: checks in from home**
   Attendances · check-in inside Odoo
4. **Faculty meeting runs late: 1.5 h extra**
   Attendances · overtime, approved by the head
5. **Files one sick day for Friday**
   Time Off · approved, balance 5 → 4
6. **Cut-off: the payslip reads it all**
   Payroll · draft for review

Step 6 of 6 · no form, no re-keying, nothing counted by hand

how we get there

Three phases, each one live before the next.

PHASE 1

Timekeeping

Every person, schedule and leave balance in Odoo

- Faculty and staff by division
- Bell times and part-time loads
- Leave types, holidays, approvers

✓ Live when every teacher has a schedule, an approver and a balance

See phase 1 →

PHASE 2

Attendance

Time-ins stamped by the system, on campus and online

- Kiosk at the gate, badge or PIN
- Check-in inside Odoo for online classes
- Lates and overtime counted by rule

✓ Live when one month in Odoo matches the forms, then the forms retire

See phase 2 →

PHASE 3

Payroll

Payslips from approved time, with Philippine reports

- Full-time and part-time pay rules
- SSS and Pag-IBIG loan deductions
- 1601-C, 2316, 1604-C, Alphalist

✓ Live when two parallel cut-offs match your current payroll

phase 1 · timekeeping

Every person, every schedule, in one place.

Employees · Time Off

1. **Discovery per division**
   Basic Ed, SHS and Tertiary: who works when, who approves
2. **Faculty and staff into Employees**
   Division, department, position, full- or part-time
3. **Working schedules**
   Bell times per division, part-time loads, breaks
4. **Holidays and the school calendar**
   Philippine public holidays and school breaks
5. **Leave types and balances**
   Allocations per type, carried over from your records
6. **Approvers and access**
   Division heads approve; HR sees all; staff see their own

YOU GIVE US
Staff list, bell times, leave rules, current balances

YOU GET
One employee list and a schedule for every teacher

DONE WHEN
Every teacher has a schedule, an approver and a balance

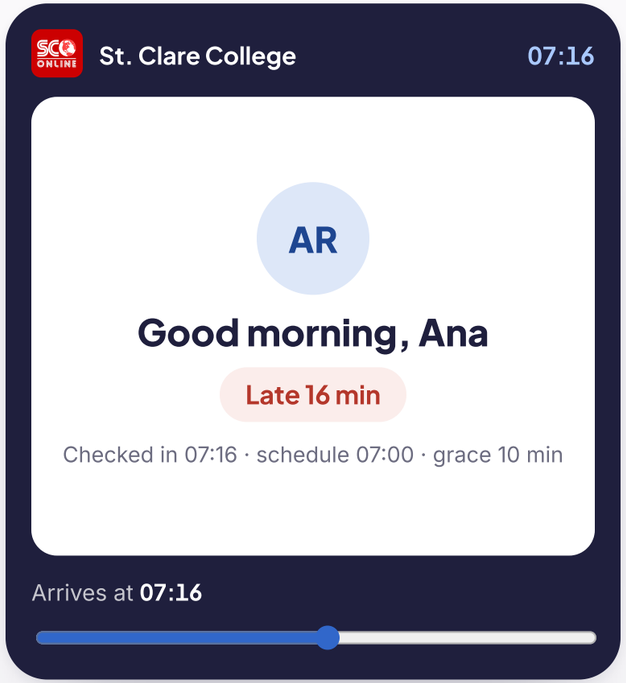

✓ Illustrative · sample schedules

phase 2 · attendance

The system stamps the time, not the teacher.

Attendances

1. **A kiosk at the gate**
   A tablet in kiosk mode: badge or PIN, photo on camera devices
2. **Online classes**
   Check-in from inside Odoo, recorded against the schedule
3. **Biometric devices, if you have them**
   Odoo 20 connects eSSL and Mantra; we check yours
4. **Grace periods and overtime rules**
   Who approves extra hours; holiday rates
5. **A view per division**
   Lates, absences and extra hours, by schedule and day
6. **One month side by side**
   Forms and Odoo in parallel, then the forms retire

Senior High · today — 2 late

B. Santos	06:51	On time
C. Dela Cruz	06:58	On time
A. Reyes	07:16	Late 16 min
D. Garcia	07:21	Late 21 min
E. Ramos	13:00	Online

YOU GIVE US
Gate and device locations, grace and overtime rules

YOU GET
Time-ins nobody types, lates counted by rule

DONE WHEN
A full month in Odoo matches the forms; heads approve in Odoo

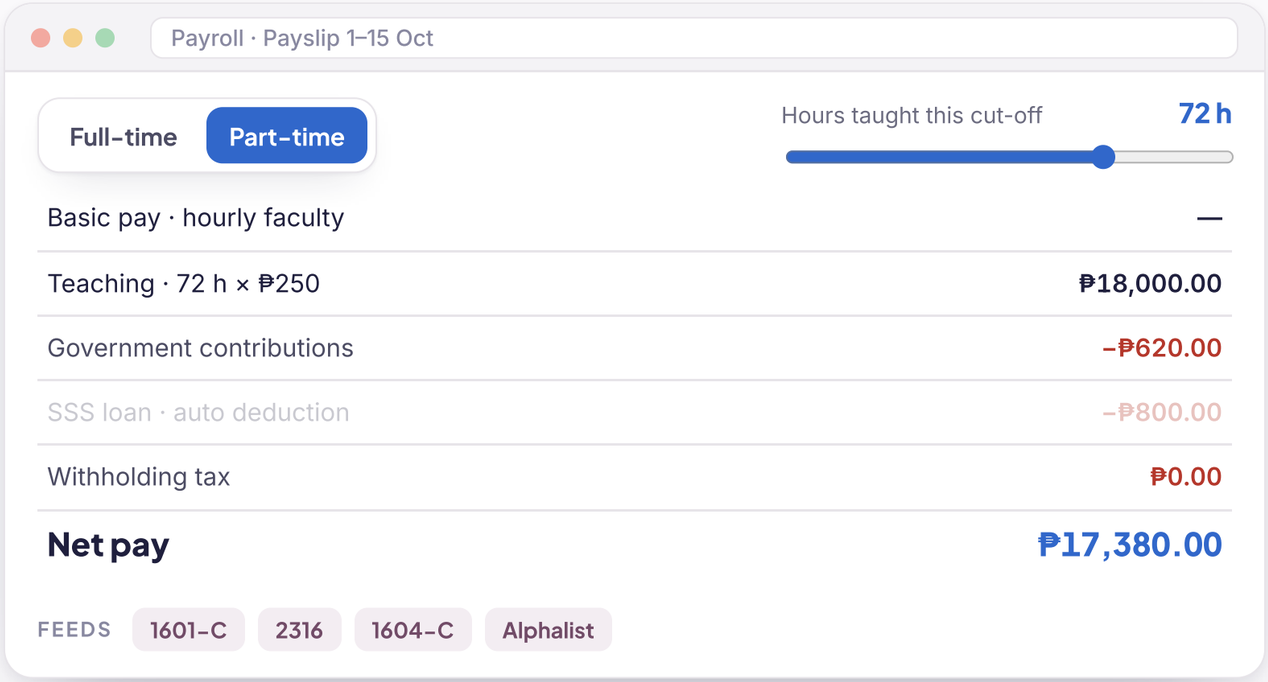

✓ Illustrative · sample names, times and grace period

phase 3 · payroll

Approved time in, payslips out.

Payroll · Philippines

1. **Odoo 20's Philippine payroll package**
   Salary structures for full-time and part-time faculty
2. **Pay schedule and cut-offs**
   Your pay dates, set once, used every run
3. **Contributions, tax and loans**
   Automatic SSS and Pag-IBIG loan deductions
4. **Two parallel cut-offs**
   Odoo and your current payroll, line by line
5. **Payslips to every employee**
   In their own Odoo, in a payslips folder
6. **BIR reports from the payslips**
   1601-C monthly, 2316 yearly, 1604-C and Alphalist

YOU GIVE US
Pay rules, rates, loans and two past cut-offs

YOU GET
Payslips from approved time, BIR reports ready

DONE WHEN
Two parallel cut-offs match, every difference explained

✓ Illustrative · sample rates and deductions, not St. Clare's
