what we do

Compliance and transformation, from one team of advisers.

01

BIR compliance

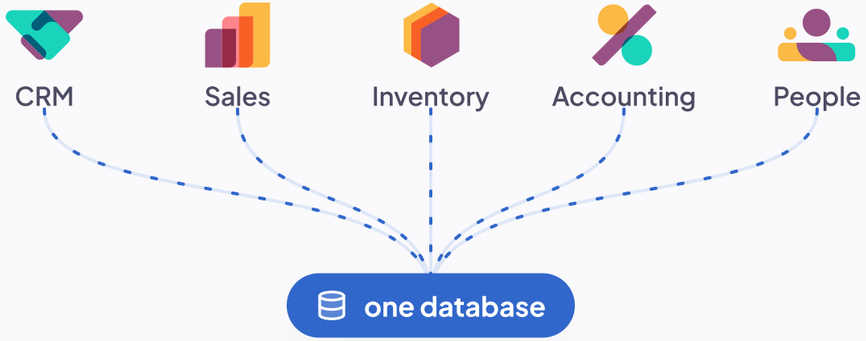

We go through the BIR rules with you and set Odoo up for them: e-invoicing, CAS or CBA, forms and withholding, and audit records.

02

Business transformation

Sales, stock, purchasing, accounting and people in one Odoo database, with AI and a website that feed it.

TechNext is an Odoo Ready Partner. We are not affiliated with, accredited by or acting for the BIR or any government agency, and we do not file or register on your behalf. Your accountant or RDO confirms what applies to you.
