a proposal for our first meeting

Cast for Honda. Invoiced for the BIR.

A phased Odoo proposal: BIR e-invoicing first, then traceability and the plant, then AI and a B2B presence.

your group

One plant in Laguna, a group on four continents.

For Laguna Metts: one Odoo for invoices, books, lots, dies and quality.

what we understand

Three guesses about Laguna Metts. Tell us which are wrong.

INDUSTRY

An aluminium die-caster for Honda parts

TODAY

An ERP we understood comes from Thailand

NEED

Invoices and books set up for BIR requirements

Our guesses

True, or not us?

1. Sales to sister plants are zero-rated exports in USD or JPY — True / Not us
2. Lot, die and shot data live on paper or in Excel — True / Not us
3. Reports for Metts are put together by hand — True / Not us

the rules in plain words

From 31 December 2026, covered taxpayers e-invoice.

31 DECEMBER 2026

39

working days left

31 Dec 2026. From this date, covered taxpayers issue compliant e-invoices. An issued e-invoice can't be deleted or changed.

Who it covers

- E-commerce or internet sellers
- Large Taxpayers Service
- Large taxpayers (RA 11976, RR 8-2024)
- CAS or CBA users with invoicing software
- Micro taxpayers: exempt

Your accountant or RDO confirms which group you are in. Head office and branches are covered.

TAX CODE SEC. 264(A)

No proper invoice issued

₱1,000 – ₱50,000

fine, **and** imprisonment of 2 to 4 years

For failing or refusing to issue an invoice. RR 11-2025 applies it to e-invoicing.

TAX CODE SEC. 264-A

Sales data not sent to the BIR

₱10,000 a day

or 1/10 of 1% of annual net income a day, if higher · **over 180 days in a year: permanent closure**

Applies once the BIR switches on electronic sales reporting (not started yet).

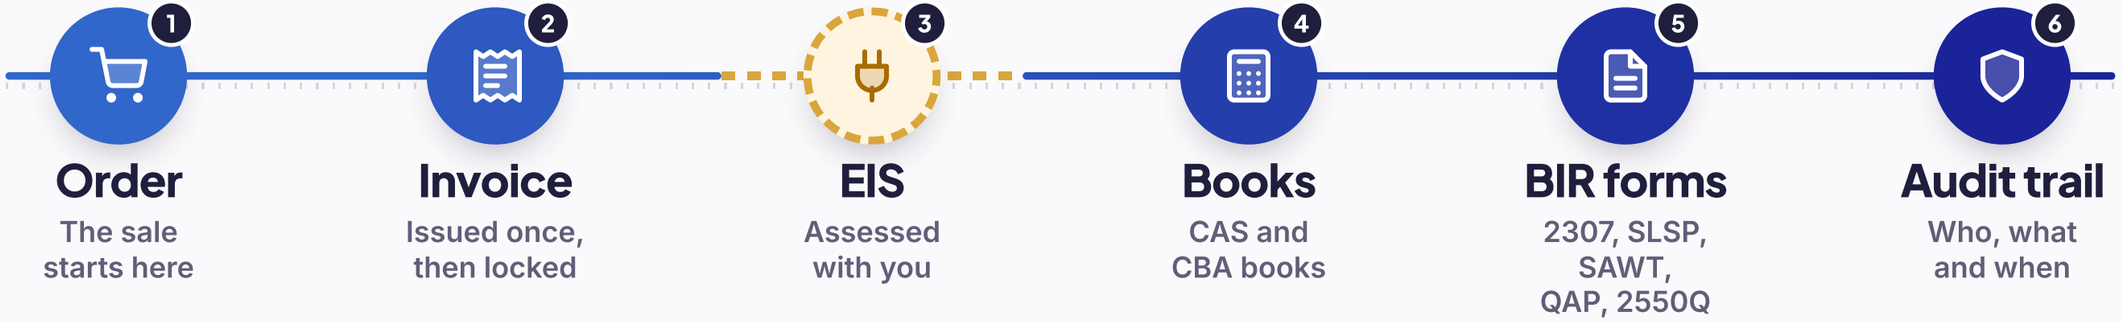

The BIR has not published a separate penalty for the 31 December date itself, and the Commissioner can still extend it.

Your accountant or RDO confirms what applies. TechNext is not affiliated with the BIR.

1. Does Laguna Metts hold a CAS permit, or sit under the Large Taxpayers Service?
2. Which accounting or ERP system runs today, and is it set by Metts?
3. Has the Permit to Issue (PTI) application started?
4. Who approves the IT budget: Laguna Metts, or Metts in Japan?
5. How are die, shot and lot data recorded today: paper, Excel or a system?
6. How do Honda and the sister plants send POs and forecasts: portal, PDF or EDI?
7. How do sales split between local Honda supply and exports?
8. May Laguna Metts take customers outside the group?
