who we are

Your trusted expert adviser, for ERP and compliance.

TechNext is headquartered in Singapore, with its main development and consulting hub in Metro Manila and AI engineering in Ho Chi Minh City. This is our company, and our own experts do the work: we look at how a business runs, recommend what fits, then implement it, Odoo ERP end to end and enterprise AI.

what we do

ERP, AI and marketing, advised and delivered by one team.

ODOO ERP

Odoo ERP implementation

Discovery, configuration, migration, training, integration and support. Accounting, Sales and Inventory first.

- ✓ ERP implementation and CRM
- ✓ Multi-company, multi-country Odoo
- ✓ Customization and integration
- ✓ Training and support

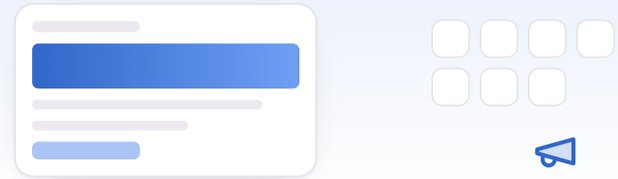

ENTERPRISE AI

Enterprise AI

AI agents and automation, knowledge assistants and chatbots, grounded in your own data and often connected to Odoo.

- ✓ RAG knowledge assistants
- ✓ AI inside Odoo
- ✓ Workflow automation agents
- ✓ AI chatbots

MARKETING

Websites and social

Websites and social media management, run as a monthly service alongside, not inside, Odoo.

- ✓ Web design and development
- ✓ Social media management
- ✓ Graphic and brand assets
- ✓ A monthly report

our odoo partnership

An Odoo Ready Partner, standard first.

We advise on and implement Odoo 20 with Odoo's methodology and partner resources, so you get the standard product configured well, not a bespoke system nobody else can maintain.

how an engagement runs

Five steps, the same advisers from start to finish.

STEP 5

Support

Fixes, month-end help, upgrades and small changes, handled by the team that configured your system.

You get: one support channel after go-live

WHO'S ON IT

- **SG** Singapore HQ — On-site with you
- **PH** Taguig City — Development and consulting
- **VN** Ho Chi Minh City — AI engineering
- Your team — Process owners, key users

All three offices, one support channel.

industries

Odoo, set up for how your industry runs.

Medical
Clinics and healthcare groups

Travel
Agencies, tours and hospitality

Retail
Stores, POS and stock in one place

Ecommerce
Online orders, fulfilment and books

Construction
Projects, site costs and progress billing

F&B
Restaurants, cafés and central kitchens

Manufacturing
Bills of materials, work orders, costing

Health & Wellness
Studios, spas, memberships and retail

MEDICAL

Consumables and medicines tracked by lot and expiry, purchasing centralised, and each clinic's accounts kept clean without a separate spreadsheet per site.

- Appointments
- Point of Sale
- Inventory
- Purchase
- Accounting

how we advise

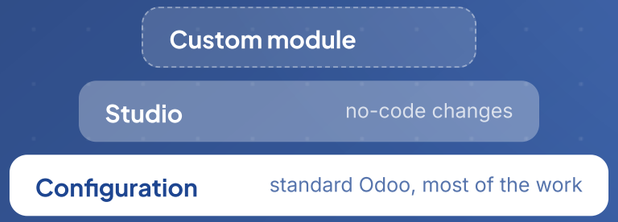

A few rules we keep.

01

Problem before pitch

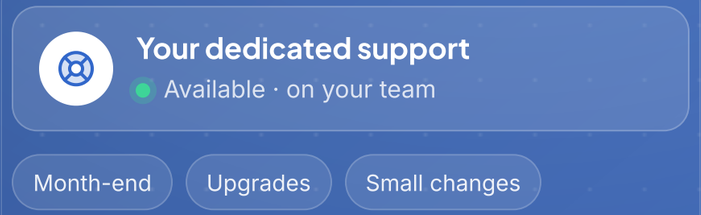

We don't propose apps until we've seen the process. Discovery comes first, and the quotation follows the scope.

02

Standard before custom

Configuration over code. Custom modules only where the process genuinely differs, and built to survive upgrades.

03

Dedicated support, on your team

After go-live you have a dedicated support person who knows your system. Month-end, upgrades and small changes stay with us.
